Introduction

Early years providers must meet all the statutory requirements of the Early Years Foundation Stage and take all necessary steps to keep children safe and well, including by maintaining records, policies and procedures.

Children's rights and entitlements statement

This statement underpins the policies and procedures – in particular, section 06 Safeguarding Children, Young People and Vulnerable Adults procedures. It is important that all staff in your setting uphold and work with the principles and ethos within this statement.

Eton Pre-School support the 54 Articles contained within the UN Convention on the Rights of the Child (1989). **We** recognise that these articles apply to children globally and draw attention to the disparity between and within countries and across regions of the world in the way that children receive and enjoy basic rights. **We** support organisations and statutory agencies to promote recognition and achievement of children's rights to ensure a better experience for all children.

As an early years provider and a member of the Early Years Alliance, We follow the Alliance's '**four key commitments**' that are broad statements against which policies and procedures are drawn to provide a consistent and coherent strategy for safeguarding children young people and vulnerable adults.

1. **We are** committed to empowering children, young people, and vulnerable adults, promoting their right to be '**strong, resilient, actively listened to, and heard**'.
2. **We will** uphold a culture of safety in which children, young people and vulnerable adults are protected from abuse and harm in all areas of its curriculum and service delivery.
3. **We are** committed to preventing harm and responding promptly and appropriately to all incidents or concerns of abuse that may occur. Working with statutory agencies to achieve the best possible outcomes for every child.
4. **We are** dedicated to increasing safeguarding confidence, knowledge and good practice throughout its training and learning programmes for adults, advocating support and representation for those in greatest need.

What it means to promote children's rights and entitlements:

To be **strong** means to be:

- *secure* in their foremost attachment relationships where they are loved and cared for, by at least one person who can offer consistent, positive, and unconditional regard and who can be relied on
- *safe and valued* as individuals in their families and in relationships beyond the family, such as day care or school

- *self-assured* and form a positive sense of themselves – including all aspects of their identity and heritage
- *included equally and belong* in early years settings and in community life
- *confident in abilities* and *proud* of their achievements
- *progressing optimally* in all aspects of their development and learning
- *to be part of a peer group* in which to learn to negotiate, develop social skills and identity as global citizens, respecting the rights of others in a diverse world
- *to participate and be able to represent themselves* in aspects of service delivery that affects them as well as aspects of key decisions that affect their lives.

To be **resilient** means to

- *be sure* of their self-worth and dignity
- be able to be *assertive* and state their needs effectively
- be able to *overcome* difficulties and problems
- *be positive* in their outlook on life
- be able to *cope* with challenge and change
- have a *sense of justice* towards self and others
- to develop a *sense of responsibility* towards self and others
- to be able to *represent* themselves and others in key decision-making processes

To be **actively listened to and heard** means:

- adults who are close to children recognise their need and *right to express and communicate* their thoughts, feelings, and ideas
- adults who are close to children can *tune in* to their verbal, sign, and body language to understand and interpret what is being expressed and communicated
- adults who are close to children can *respond appropriately and, when required, act upon their understanding* of what children express and communicate
- adults *respect children's rights and facilitate children's participation and representation* in imaginative and child-centred ways in all aspects of core services.

0. Policies and procedures implementation and review

0.0 Implementation and review procedure

We have one set of policies and procedures which are consistent across our provision and in line with the current EYFS requirements. These policies also cover after school club provision

- Policies and procedures are written and reviewed annually **as a minimum or when there is a change in practice or legislation.**
- Changes are only made to the policies and procedures by the setting manager
- Policies and procedures are risk assessed and reviewed following any incident that is reportable under RIDDOR.
- Disciplinary action may be taken where individuals have disregarded policies and procedures.

Familiarisation and implementation

- It is the responsibility of every member of staff, agency worker, assistant, volunteer and student (hereon referred to as staff for clarity), within the setting to adhere to and always implement the policies and procedures.
- The setting manager offers advice and support to staff regarding procedure implementation.
- An overview of policies and procedures is included in induction for individual members of staff, with specific emphasis given to safeguarding procedures.
- Members of staff must sign to say that they are aware of and will adhere to the current policies and procedures.
- Members of staff understand that they must refer to the procedures as they support all aspects of their work within the setting.
- Staff meetings and in-house training events are used as opportunities to focus on procedures as required, and to discuss their implementation.
- Where there is an outbreak of a communicable disease or infection, the relevant procedure is photocopied and displayed for parents' reference during the outbreak.
- Other procedures may be displayed where a situation arises, for example to highlight health and safety concerns such as closing the gate.
- Following implementation of a procedure, such as emergency evacuation or other health and safety procedures, the setting manager will conduct a review as follows:
 - did all members of staff follow the procedure and is further training required on any aspect of implementation?
 - did the procedure fit the circumstance; does it need adapting or changing?

Parents

- Parents/carers know how to access a full set of policies and procedures.

01 Health and safety policy

This policy was adopted by *Eton Pre-School* on 1/9/2025

Designated Health and Safety Officer: Tessa Snell

Aim

Eton Pre-School is a suitable, clean and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for health and safety and fulfil the criteria for meeting the Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and duty of care towards those who work in and receive a service from our provision. Individual staff and service users Eton Pre-School also have responsibility for ensuring their own safety as well as that of others. Adherence to policies and procedures and risk assessment is the key means through which this is achieved.
- Insurance is in place (including public liability) and an up-to-date certificate is always displayed.
- Risk assessment is carried out where it is helpful to do so, to ensure the safety of children, staff, parents, and visitors. Legislation requires all those individuals in the given workplace to be responsible for the health and safety of premises, equipment and working practices.
- Smoking and vaping are not allowed on the premises, both indoors and outdoors. If children use any public space that has been used for smoking or vaping, members of staff ensure that there is adequate ventilation to clear the atmosphere. Staff do not smoke or vape in their work clothes and are requested not to smoke or vape within at least one hour of working with children. The use of electronic cigarettes is not allowed on the premises.
- Staff must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If staff are taking medication that they believe may impair them, they must seek further medical advice and only work directly with children if that advice is that the medication is unlikely to impair their ability to look after children. The setting manager must be informed.
- Alcohol must not be bought onto the premises for consumption.
- A risk assessment and access audit are carried out for each area as required and the procedure is modified according to needs identified for the specific environment.
- Risk assessments are monitored and reviewed by those responsible for health and safety.

01 Health and safety procedures

01.1 Risk assessment

Risk assessment is carried out to ensure the safety of children, staff, parents, carers, and visitors.

Individuals in the workplace are responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' and 'duty of care' to those who work in, and receive a service from our provision. Individuals are also responsible for ensuring their own and others safety.

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is important when balancing the need for children to take appropriate risks through physically challenging play. Children need opportunities to work out what is not safe and what to do when faced with a risk.

Daily safety sweeps and checks indoors and outdoors.

- Safety sweeps are conducted before children arrive when setting up for the day or closing in the evening.
- **Health and safety risk assessments**

Health and safety risk assessments inform procedures

The setting manager undertakes training and ensures staff have adequate training in health and safety matters. The setting manager ensures that checks/work to premises are carried out and records are kept.

- Gas safety by a Gas Safe registered gas/heating engineer.
- Electricity safety by a qualified electrician.
- Fire precautions to check that all fire-fighting equipment and alarms are in working order.(carried out by landlord)
- Hot air heating systems/air conditioning systems cleaned and checked.
- Deep clean is carried out in kitchen annually

The setting manager ensures that risk assessments include relevant aspects of fire safety, food safety, in each of the following areas of the premises:

- Entrance and exits.
- Outdoor areas.
- Off-site venues used regularly.
- Passageways, and connecting areas.
- Main room
- Areas used for sleep.

- Main kitchen.

- Staff/office room.

The setting manager ensures risk assessment for off-site activities, such as children's outings (including use of public transport), are completed

The setting manager carries out a risk assessment for work practice that they deem necessary such as outings/visits and animals on the premises.

01 Health and safety procedures

01.3 Kitchen

General safety

- Children do not have unsupervised access to the kitchen.
- Wet spills are mopped immediately, or salt is applied if oil
- Mechanical ventilation is used when cooking and a window is opened
- A clearly marked and appropriately stocked First Aid box is kept in the kitchen.

Cleanliness and hygiene

Staff follow the recommended cleaning schedules in Safer Food Better Business (SFBB).

- Floors are washed down at least daily.
- All work surfaces are washed regularly and sprayed with anti-bacterial agent.
- Inside of cupboards are cleaned regularly
- Cupboard doors and handles are cleaned regularly.
- Fridge and freezer doors are wiped down regularly.
- Ovens/cooker tops are wiped down daily after use; ovens are fully cleaned regularly
- Where possible all crockery and cutlery are air dried.
- Plates and cups are only put away when fully dry.
- Any cleaning cloths used for surfaces are washed and replaced daily.
- Any repairs needed are reported to the manager.

Chip pans are not used.

01 Health and safety procedures

01.4 Children's bathrooms/changing areas

- Children have their own bag of clothes and nappies which are secured safely in the cloakroom
- Children are changed (if required) on a mat on the floor
- Changing mats are cleaned and disinfected.
- Disposable nappies/trainers are placed in nappy disposal unit.
- Staff use single use gloves (and aprons if required) to change children and wash hands when leaving changing areas.
- Changing mats used are covered in blue roll for each change.
- Changing mats are disinfected after each change.
- Anti-bacterial sprays used in nappy changing areas are not left within the reach of children.
- Natural or mechanical ventilation are used in the children's changing area

Children's toilets and wash basins

- Bins are provided for disposal of paper towels and are emptied daily.
- All bins are lined with plastic bags.
- Staff who clean toilets wear gloves.
- Staff changing children wear gloves and aprons as appropriate.
- Wet or soiled clothing is double bagged and removed to a safe area for parents to collect
- Floors in children's toilets are washed daily.
- Spills of body fluids are cleared and mopped using disinfectant.
- Mops are rinsed and wrung after use and stored upright'
- Mops used to clean toilets or body fluids from other areas are designated for that purpose only and kept separate from mops used for other areas. Colour coding helps keep them separate
- At Eton Pre-School we employ cleaning contractors who clean daily. If there are increased incidents of infection staff will clean toileting areas more frequently to reduce risks.

01 Health and safety procedures

01.6 Short trips, outings and excursions

Planning and preparation

- Outings have a purpose with specific learning and development outcomes.
- Parents/carers sign a permission slip and understand the areas that the children may visit.
- A minimum of two staff accompany children on outings. We will stick to our legal requirements or above depending on the nature of the outing
- Children are specifically allocated to each member of staff/volunteer; they are responsible for supervising their designated children for the duration of the excursion.
- Parents/carers who have undergone vetting as volunteers may be included in the ratio.
- A mobile phone and grab bag containing first aid and emergency supplies will be taken
- Sun cream is applied as needed and children are clothed appropriately.
- Staff have emergency contacts, medication and equipment needed for children.
- High Viz jackets are available for staff and children depending on outings risk.

Risk assessment

- Risk assessment if required, is completed prior to the outing.
- Children with specific needs have a separate risk assessment if necessary.

Outing venue (larger outings)

- Venues used are 'risk assessed' and an initial pre-visit is made to look at the health and safety aspects. If pre-visits cannot be made, risk assessment is achieved by calling the venue and asking for their risk assessment.

Transport

- If coach hire is required for an outing, only reputable companies are used.
- The setting manager ensures that seat belts are provided on the coach.
- The maximum seating capacity of the coach or minibus is not exceeded.
- Contracted drivers are not counted in ratios.
- A driver must have an updated DBS which is provided before the trip.

Where transport is provided by the setting

- Records are kept including insurance details and a list of named drivers.

- Drivers using their own transport should have adequate insurance cover.

Forest School

- A separate risk assessment is conducted, and Forest School standard procedures are followed.
- The sessions always have a trained outdoor classroom leader

Farm and zoo visits

Staff are aware of the risks posed by infections such as E. coli being contracted from animals. They are also aware of toxic substances used on farms that could be hazardous to health. Staff are vigilant of the natural dangers presented by a farm or zoo visit and conduct a risk assessment prior to the visit.

- The venue is contacted before the visit to ensure no recent E. coli outbreaks or other infections. If there has been an outbreak the visit will be reviewed and may be postponed.
- Hands are washed and dried thoroughly after touching an animal.
- Nothing is consumed whilst going round the farm. Food is eaten away from animals, after thoroughly washing hands.
- Children are discouraged from putting their faces against animals or hands in their own mouths.
- If animal droppings are touched, hands are washed and dried immediately.
- Staff or volunteers who are or may be pregnant should avoid contact with pregnant ewes and may want to consult their own GP before the visit.
- Farmers have a responsibility to ensure that hand washing and drying facilities are available and are suitably located, that picnic areas are separate and clean, and that all other health and safety laws are fully observed.

01 Health and safety procedures

01. 7 Outdoors

- At Eton Pre-School all gates and fences are safe, and secure.
- Areas are checked daily to make sure animal droppings, litter, glass etc. is removed.
- Wooden equipment is maintained safely and not used if broken.
- Broken climbing equipment or outdoor toys are removed and reported to the setting manager.
- Children are always supervised outside.
- Children are suitably attired for the weather conditions and type of outdoor activities.
- Sun cream is applied and hats are encouraged during the summer months.
- Outdoor play is avoided in extreme heat.
- Children who have no adequate means of sun protection, such as hat, long sleeves and trousers or sun cream, will not be able to play outdoors unless provided with such
- Receptacles are left upturned to prevent collection of rainwater. Collected rainwater will be removed
- Outdoor areas that have flooded are not used until cleaned down and restored. Grassed areas are not played on for at least one week after the floodwater has gone.
- If paddling pools are used, a risk assessment is conducted and consideration given to the needs of disabled children or those less ambulant.

Drones and Strangers attempting to take images

If there are concerns about a 'drone' being flown over the outdoor area, or public taking pictures that may compromise children's safety or privacy, the setting manager will contact the police on 101.

- Children will be brought inside immediately.
- Parents may need to be informed
- The Manager will liaise with the police if there are ongoing concerns
- An incident record will be created

01 Health and safety procedures

01.8 Staff cloakrooms

- Gates to staff/visitor toilets and cloakrooms are kept always shut.
- Staff are provided with lockers or a secure area for storing personal belongings, including any medication they are taking.
- Staff toilets are cleaned daily by the contract cleaners and more often by staff if required.
- Paper towels are provided for hand drying.
- Bins are provided for sanitary wear and cleared as per contract agreement.
- Bins are provided for disposal of paper towels and are cleared daily.

01 Health and safety procedures

01.9 Maintenance and repairs

Any faulty equipment or building fault at Eton Pre-School is recorded, including:

- Date fault noted.
- Item or area faulty.
- Nature of the fault and priority.
- Is a risk assessment required?
- Who the fault reported to for action.
- Action taken and when.
- If no action taken by the agreed date, when and by whom the omission is followed up.
- Date action completed.

Any area that is unsafe because repair is needed, such as a broken window, should be made safe and separated off from general use.

- Any broken or unsafe item is taken out of use and labelled 'out of use'.
- Any specialist equipment (e.g. corner seat for a disabled child) which is broken or unsafe should be returned to the manufacturer or relevant professional.
- Any item that is beyond repair is condemned. This action is recorded as the action taken and the item is removed from the setting's inventory.
- Condemning items is done in agreement with the setting manager. Condemned items are then disposed of appropriately and not stored indefinitely on site.
- Where maintenance and repairs involve a change of access to the building whilst repairs are taking place, then a risk assessment is conducted to ensure the safety and security of the building is maintained.

01 Health and safety procedures

01.11 Staff personal safety

General

- Members of staff who are in the building early in the morning or late in the evening, ensure that doors and windows are locked.
- Where possible, the last two members of staff in the building leave together after dark
- Visitors are allowed access only once identifications are verified.
- When taking cash to the bank, members of staff are aware of personal safety.

Dealing with agitated parents/carers or other visitors in the setting

- If a parent/carer or visitor appears to be angry, mentally agitated, or possibly hostile, two members of staff will lead them away from the children to an area less open but will shut the door behind them.
- If the person is standing, staff will remain standing.
- Staff will try to remain calm and reasonable
- Staff offer to discuss the issue of concern and show they recognise the concern.
- Staff will ensure that the language they use can be easily understood.
- Staff will make it clear that they want to hear issues and seek solutions.
- If the person makes threats and continues to be angry, members of staff make it clear that they will be unable to discuss the issue until the person stops shouting or being abusive,
- If threats continue, members of staff will explain that the police will be called and emphasise the inappropriateness of such behaviour in front of the children.
- Procedure 01.12 Threats and abuse towards staff and volunteers is implemented where staff feel threatened or intimidated.
- If the event involves a child's parent or carer, it is recorded in the child's file together with any decisions made with the parents/carers to rectify the situation.
- Any situation involving threats to members of staff are reported to the line manager, following procedure 01.12 Threats and abuse towards staff and volunteers.
- Copies of correspondence regarding the incident will be kept in the relevant child's file.

01 Health and safety procedures

01.12 Threats and abuse towards staff and volunteers /Staff safety

Eton Pre-School is responsible for protecting the health and safety of all staff and volunteers in its services and has a duty of care in relation to their physical and emotional well-being. We believe that violence, threatening behaviour and abuse against staff are unacceptable and will not be tolerated. Where such behaviour occurs, we will take all reasonable and appropriate action in support of our staff and volunteers.

- Staff and volunteers have a right to expect that their workplace is a safe environment, and that prompt and appropriate action will be taken on their behalf if they are subjected to abuse, threats, violence or harassment by parents, service users and other adults as they carry out their duties.
- The most common example of unreasonable behaviour is abusive or intimidating and aggressive language. If this occurs, the ultimate sanction, where informal action is not considered to be appropriate or has proved to be ineffective, is the withdrawal of permission to be on the premises.
- Where a person recklessly or intentionally applies unlawful force on another or puts another in fear of an immediate attack, it is an offence in law which constitutes an assault. We would normally expect the police to be contacted immediately.

Any staff member or volunteer who feels under threat or has been threatened, assaulted, or intimidated in the course of their work must report this immediately to their manager

999 should always be used when the immediate attendance of a police officer is required. The police support the use of 999 in all cases where:

- there is danger to life
- there is a likelihood of violence
- an assault is, or is believed to be, in progress
- the offender is on the premises
- the offence has just occurred, and an early arrest is likely

If it is not possible to speak when making a 999 call because it alerts an offender, cough quietly or make a noise on the line, then follow the prompts to dial 55 (mobiles only) for a silent call. Police may be able to trace the call and attend the premises.

Harassment and intimidation – including sexual harassment

Staff may find themselves subject to a pattern of persistent unreasonable behaviour from individual parents or service users. This behaviour may not be abusive or overtly aggressive but could be perceived as intimidating and oppressive. In these circumstances staff may face a barrage of constant demands or

criticisms on an almost daily basis, in a variety of formats for instance, email or telephone. They may not be particularly taxing or serious when viewed in isolation but can have a cumulative effect over a period of time undermining their confidence, well-being, and health. In extreme cases, the behaviour of the parent/carer or other service user may constitute an offence under the Protection from Harassment Act 1997, whereby:

A person must not pursue a course of conduct:

(a) which amounts to harassment of another, and

(b) which he knows or ought to know amounts to harassment of the other.

If so, the police have powers to act against the offender. Such situations are rare but, when they do arise, they can have a damaging effect on staff and be difficult to resolve. If the actions of a parent/carer are heading in this direction, staff should speak to their manager who will take appropriate action to support. This may include the manager sending a letter to the aggressor, warning them that their behaviour is unacceptable and may result in further action being taken against them. All incidents must be recorded and reported to the owners/directors/trustees.

Banning parents/carers and other visitors from the premises

- Parents/carers and some other visitors normally have implied permission to be on the premises at certain times and for certain purposes, and they will not therefore be trespassers unless the implied permission is withdrawn.
- If a parent/carer or other person continues to behave unreasonably on the premises a letter will be sent to them from the owners/directors/trustees withdrawing the implied permission for them to be there.
- Further breaches may lead to prosecution of the person concerned by the police, and they are treated as a trespasser.
- Full records are kept of each incident, in the Reportable Incident Record, including details of any person(s) who witnessed the behaviour of the trespasser(s), since evidence will need to be provided to the Court.

Dealing with an incident

- We would normally expect all cases of harassment, assault, and all but the most minor of other incidents, to be regarded as serious matters which should be reported to the setting manager and/or the police and followed up with due care and attention.
- A record of the incident must be made whether the police are involved or not.
- Whilst acknowledging that service users i.e. parents and families, may themselves be under severe stress, it is never acceptable for them to behave aggressively towards staff and volunteers. Individual circumstances along with the nature of the threat are considered before further action is taken.

- All parties involved should consider the needs, views, feelings and wishes of the victim at every stage. We will ensure sympathetic and practical help, support and counselling is available to the victim both at the time of the incident and subsequently.
- A range of support can be obtained:
 - from the setting manager, owners/directors/trustees and/or a staff colleague
 - from Victim Support on giving evidence in court
- In non-urgent cases, where the incident is not thought to be an emergency, but police involvement is required, all staff and volunteers are aware of the non-emergency police contact number for the area.
- 999 calls receive an immediate response. Unless agreed at the time, non-emergency calls are normally attended within 8 hours (24 hours at the latest).
- When they attend the setting or service, the police will take written statements from the victim (including a 'Victim Personal Statement') and obtain evidence to investigate the offence in the most appropriate and effective manner.
- The police will also consider any views expressed by the setting manager and owner/directors/trustees as to the action they would like to see taken. The manager should speak to the victim and be aware of his or her views before confirming with the police how they wish them to proceed.
- In some cases, the victim may be asked by the police if he/she wishes to make a complaint or allegation against the alleged offender. It is important to ensure that the victim can discuss the matter with their line manager, a colleague or friend before deciding on their response. It is helpful for the victim to be assured that, if there is a need subsequently to give evidence in court, support can be provided if it is not already available from Victim Support.
- The decision regarding whether an individual is prosecuted is made by the police or Crown Prosecution Service (CPS) based on the evidence and with due regard to other factors.
- After the incident has been dealt with, a risk assessment is done to identify preventative measures that can be put in place to minimise or prevent the incident occurring again.

Harassment or intimidation of staff by parents/carers/visitors

- **Through open communication between staff and parents/carers a culture of respect and tolerance should always be promoted. Should this communication and relationship break down due to a parent or parents/carers behaviour towards the staff member the setting manager should contact their line manager for advice and support. Where the staff member feels threatened or intimidated the aggressive and unacceptable behaviour should be addressed.**
- Where the parent/carers behaviour merits it, the setting manager, with another member of staff present, should inform the parent/carer clearly but sensitively that staff feel unduly harassed or intimidated and

are considering **escalating the issue** and making a complaint to the police if the behaviour does not desist or improve. The parent/carer should be left in no doubt about the gravity of the situation and that this will be followed up with a letter drafted by the setting manager but sent to their line manager for approval before being issued.

- **The letter to the parent/carers should outline the zero-policy approach for any form of harassment, intimidation or abuse directed at staff.**
- **Staff must keep a record of incidents, including dates, times, locations, and witnesses, to support future action and meet reporting procedures as outlined in policy 7 – record keeping**
- If the investigation concludes that the parents/carers expectations and demands are unreasonable, and that they are having a detrimental effect on staff, the findings can strengthen the setting manager's position in further discussions with the parent/carer and subsequently, if necessary, with the police. **See procedures above relating to banning parents/carers from the premises.**
- **If the investigation concludes that the parents/carers expectations and demands are reasonable and if the parent/carer feels unhappy with the staff member or the setting itself** the setting manager and/or owners/directors/trustees might wish to consider advising the parent/carer to make a formal complaint. Information about how to complain is clearly displayed for parents/carers and service users.

Complaints relating to potential breaches of the EYFS Safeguarding and Welfare requirements will be managed according to the 10.2 Complaints procedure for parents/carers and service users.

Further guidance

[Complaint Investigation Record](#) (Alliance Publication)

[Reportable Incident Record](#) (Alliance Publication)

01 Health and safety procedures

01.13 Entrances and approach to Eton Pre-School building

- Entrances and approaches are kept tidy and always uncluttered.
Staff ensure that members of the public cannot access areas used by children during sessions.
- All gates and external fences are childproof and safe.
- Main doors are always kept locked and shut when not in use.
- Entry phone or chain will be used when answering the door to an unknown visitor
- All staff and visitors to the setting sign in and out of the building.
- A member of staff is available to open and close the door and to greet arrivals, say goodbye to parents/carers and to make sure that doors and gates are shut when finished
- Where building works or repairs mean that normal entrances/exits or approaches to the building are not in use the side entrance will be used (left side of building)
- Emergency keys for the gate at the rear of the building will be kept in the outdoor first aid kit
- Building works or other changes to the premises which may affect the space available to children and the quality of childcare available to them, must be notified to Ofsted.

01 Standard Health and Safety Procedures

01.14 Control of Substances Hazardous to Health (COSHH)

- Staff at Eton Pre-School implement the current guidelines of the Control of Substances Hazardous to Health (COSHH) Regulations.
- Personal protective equipment (PPE), such as rubber gloves, latex free gloves, aprons etc., is available to all staff as needed and stocks are regularly replenished.
- Hazardous substances are stored safely away from the children.
- Chemicals used in the setting should be kept to the minimum to ensure health and hygiene is maintained.
- Risk assessment is done for all chemicals used in the setting. (contract cleaners are responsible for their own risk assessment)
- Environmental factors are considered when purchasing, using and disposing of chemicals.
- All members of staff are vigilant and use chemicals safely.
- Anti-bacterial soap/hand wash is not normally used, unless specifically advised during an infection outbreak, such as Pandemic flu or Coronavirus.
- Anti-bacterial cleaning agents are restricted to toilets, nappy changing areas and food preparation areas and are not used when children are nearby.
- Members of staff wear suitable rubber gloves when using chemicals.

01 Health and safety procedures

01.15 Manual handling

- All staff at Eton Pre-School comply with risk assessments and have a personal responsibility to ensure they do not lift objects likely to cause injury.
- Members of staff bring the setting manager's attention to any new risk, or situations where the control measures are not working.
- Individual Risk assessments may need to be changed for some individuals.
- Risk assessment is carried out of the environment in which the lifting is done.
- The setting manager ensures that they and their staff are trained to lift and move heavy objects and unstable loads correctly.

Guidelines:

Staff and Managers will refer to the guidelines displayed in the building

01 Health and safety procedures

01.17 Jewellery and hair accessories

Children, staff members, assistants, volunteers and students do not attend the setting wearing jewellery or fashion accessories that may pose a potential hazard to other children or themselves.

- Health and safety take precedence over respect for culture, religion or
- ~~Staff~~ Staff may only wear items that are for medical purposes or those that do not pose a threat to childrens safety or their own.
- Parents/carers must ensure that any jewellery worn by children poses no risk, for example, earrings which may get pulled, bracelets which can get caught when climbing, or necklaces that may pose a risk of strangulation.
- Children may wear small, smooth stud earrings.
- Children, staff, and volunteers do not wear anything with sharp edges that could scratch children, or jewellery with small elements that could become detached and swallowed.
- Long hair must be tied up safely to avoid accidents and prevent the spread of headlice.
- Parents/carers are requested not to send children wearing hair beads. If staff see beads that are coming loose, they will remove them.
- Hair accessories that may pose a choking hazard to other children should they become detached, should be removed if members of staff consider this to be a possibility.
- Amber beads for teething pain relief are not to be worn due to the risk of choking posed to the infant and other children who may remove them.

01 Health and safety procedures

01.18 Animals and pets

- Views of parents/carers and children are considered when selecting a pet for the setting.
- Staff will be aware of any allergies or issues individual children may have with any animals/creatures.
- A risk assessment is conducted and considers any hygiene and safety risks posed by the animal or creature.
- Suitable housing for the animal is provided and is regularly cleaned and maintained.
- The correct food is offered at the right times, and staff are knowledgeable of the pet's welfare and dietary needs.
- Arrangements are made for weekend and holiday care for the animal/creature.
- There is appropriate pet health care insurance or other contingencies agreed and put in place to pay for veterinary care and the animal is registered with a local vet.
- All vaccinations and health measures such as de-worming are up to date.
- Children are taught correct handling of the pet and are always supervised.
- Children wash hands after handling a pet and do not have contact with pet faeces, or soiled bedding.
- Members of staff wear single use gloves when cleaning/handling soiled bedding.
- The manager will check with the owners/directors/trustees before introducing a new pet into the setting.
- If staff bring in dogs they must be suitable to be in the setting , pose no risk and should be kept away from the children.

Animals brought in by visitors

- The owner of the animal/creature maintains responsibility for it in the setting.
- The owner carries out a risk assessment detailing how the animal/creature is to be handled and how any safety or hygiene issues will be addressed.
- No dogs on the Government's Banned Dogs list are to be brought on site at any time. All other dogs brought on site by parents/carers during arrival and departure times must be on a lead and under control. The manager reserves the right to request that a dog is not brought on site, if the animal is out of control, or likely to pose a risk. If staff are concerned that a family owns a dog which is on the 'banned dog' list, it is treated as a safeguarding concern and it is reported to the relevant authority and safeguarding procedures are followed.

01 Health and safety procedures

01.20 Notifiable incident, non- child protection

Staff respond swiftly, appropriately and effectively in the case of an incident within the setting. Notifiable incidents in this procedure are those not involving child protection.

A 'notifiable' incident' could include:

- fire or suspected arson
- electric or Gas fault
- burst pipe, severe leak or flooding
- severe weather that has caused an incident or damage to property
- break-in with vandalism or theft
- staff, parent, carer or visitor mugged or assaulted on site or in vicinity on the way to or from the setting
- outbreak of a notifiable disease
- staff or parent threatened/assaulted on the premises by a parent or visitor
- accidents due to any other faults (that are reportable under RIDDOR)
- lost child
- any event or information that becomes known, that may have implications for the setting or the wider organisation in the future use

The designated health and safety officer

- has all emergency services numbers immediately to hand
- has a list of contacts for maintenance and repair
- ensure that members of staff know what to do in an emergency
- risk assess the situation and decides,(with the directors) if the premises are safe to receive children before any children arrive or to offer a limited service

Emergency evacuation

In most instances, children will not be evacuated from the premises unless there is an immediate risk or unless they are advised to do so by the emergency services.

- There is an emergency evacuation procedure in place which is unique to the setting
- Emergency evacuation procedures are practised regularly and are reviewed
- Staff evacuate children to a pre-designated area (as per the fire drill), unless advised by the emergency services that the designated area is not suitable at that time.

- Once evacuated, nobody enters the premises, until the emergency services say so.
- Members of staff will always act upon the advice of the emergency services.

Emergency Closure

The circumstances under which the setting may be closed due to an incident include:

- The directors make the decision to close – thereby withdrawing the service.
- A third party makes the decision to close for example:
 - the emergency services
- A parent/carer makes the decision for their child not to attend.
 - If a parent/carer makes the decision for their child not to attend due to a critical incident, the child's fees are due as normal.
 - Further consideration of individual incidences must be done in consultation with the directors.

Recording and reporting

- On discovery of the notifiable incident, the member of staff reports to the appropriate emergency service, fire, police, ambulance, if those services are needed.
- The member of staff ensures that the setting manager and/or deputy are informed
- The setting manager completes an incident form and reports to Ofsted or Riddor or both
- If the incident indicates that a crime may have been committed, all staff witness to the incident should make a written statement.
- Staff do not discuss the incident with the press.

RIDDOR reportable events include:

- Specified injuries at work, as detailed at www.hse.gov.uk/pubns/indg453.pdf
- Fatal accidents to staff, children, and visitors (parents/carers).
- Accidents resulting in the incapacitation of staff for more than seven days.
- Injuries to members of the public, including parents/carers' and children, where they are taken to hospital.
- Dangerous 'specified' occurrences,

This may include:

- a member of staff injures back at work through lifting and is off for two weeks
- a parent/carer slips on a wet floor near the water tray and is taken to hospital
- a child falls from a climbing frame and is taken to hospital
- the ceiling collapses

- an outbreak of Legionella

The setting manager completes an accident and/or incident record; witness statements are taken as previously detailed.

- If the incident is RIDDOR reportable, the setting manager telephones HSE Contact Centre on 0345 300 9923 or reports online at www.hse.gov.uk/riddor/report.htm
- RIDDOR Reportable events require reporting to RIDDOR within 15 days of the event occurring.

The local authority investigates all reported injuries, diseases, or dangerous occurrences. They will decide if there has been a breach in health and safety regulations and will decide what measures will be taken.

The Manager reviews how the situation was managed, as above, to ensure that investigations were rigorous, and that policies and procedures were followed.

If an insurance claim is likely:

- Incidents such as fire, theft or flood are notified to the insurance provider immediately.
- The setting does not admit liability.
- If broken or faulty equipment is involved, it must not be repaired, destroyed, or disposed of, in case it is needed during the investigation.
- If communication from a solicitor is received on behalf of the injured party, this is sent directly to the insurance provider; the setting manager will then write to the solicitor to confirm that the letter has been passed on.
- The incident is not discussed with any outside persons, or other parents/carers, no matter what questions they may ask about their own child's safety in relation to the incident, as it is regarded as confidential under the Data Protection Act.

01 Health and Safety Procedures

01.21 Emergency evacuation and lock-down

Lockdown

Most procedures for handling an emergency are focussed on an event happening in the building. However, in some situations you will be advised to stay put (lock-down) rather than evacuate. 'Lock-down' of a building/group of buildings is intended to secure and protect occupants in the proximity of an immediate threat. By controlling movement, emergency services can handle the situation more effectively.

- The setting manager ensures that the emergency evacuation and lockdown procedures are included in staff training and induction.
- The setting manager will follow advice from police/Eton College security
- Local police contact numbers are clearly displayed for staff to refer to.
- Lock down and evacuation procedures are regularly practiced and recorded.
- The setting manager is aware of the terrorist alert level.
- The setting manager follows any additional advice issued by the local authority.
- Emergency procedures are reviewed and added to if needed.
- Information is shared with all staff and they are aware of their role during 'lockdown.'
- A text/phone message is issued to parents/carers if required

Lock-down procedures

If an incident happens the setting manager assesses the likelihood of immediate danger. We will be advised by the Police or Eton College security if we need further information

During 'lock-down'

- Staff and children stay inside the main building or in the staff area depending on the threat.
- Doors and windows are secured until further instruction is received.
- Curtains and blinds are closed where possible.
- Staff and children stay away from windows and doors.
- Staff will keep calm and quiet and encourage the children to do so also.
- Staff do NOT make non-essential calls on mobile phones or landlines.
- If the fire alarm is activated, staff and children remain in their designated area and await further instructions from emergency services, evacuation will only take place if it is hazardous to stay in the located area.

The door will not be opened once it has been secured until the manager is officially advised "all clear" or is certain it is emergency services at the door.

During lockdown staff will follow the instructions of the Manager on duty.

Following lockdown:

- Staff will cooperate with emergency services to assist in an orderly evacuation.
- Staff will ensure that they have the register and children's details and the grab bag with medication if possible.
- Witnesses including children may need to be questioned by the emergency services.

Recording and reporting

- The setting manager reports the lockdown to the directors/trustees as soon as possible, this may not be until after the event.
- An incident record is completed as soon as possible.

Emergency evacuation

This emergency evacuation plan should be displayed clearly on the door of each room alongside a floor plan. In shared premises, the plan must be implemented alongside any other plans in place for the rest of the building.

1. The manager will walk into the room holding up an evacuation card. The fire alarm is not to be sounded.

2. The manager will gather, or ensure that staff for each group/room have the following with them:

- The visitor book.
- Signing in/out sheet.
- Register.
- Nursery management software tablets (if applicable).
- Essential medication that is required by individual children.
- The setting's mobile phone.
- An emergency 'grab bag'.

NOTE no other personal items are to be retrieved/collected. Staff do not empty their personal lockers.

3. The manager identifies the safest evacuation route to be used, depending on whether there are visible signs of danger.

Evacuation of the building commences – LIFTS ARE NOT USED

4. As the building is evacuated the manager checks each area and closes doors on the way out. If safe to do so, electrical mains and gas supplies are switched off before leaving. The locations are detailed here:

Gas supplies

.....

.....

Electrical mains.....

.....

.....

5. Key persons are responsible for their key children during evacuation and whilst at the assembly point.

6. Once the building is evacuated the manager checks with each room/group that all children/staff or visitors are accounted for by (insert method of recording registration i.e. software or paper register)

.....

.....

EVACUATION OF BABIES

A member of staff is identified to support the evacuation of non-mobile babies. The procedure for evacuating babies could include the following: (*please amend suggestions below as necessary*):

Babies are carried to the assembly point, if there are not enough available staff to carry babies, they are placed in an evacuation cot (the number of children per cot should not exceed the manufacturer's instructions) and wheeled to the evacuation point.

EVACUATION OF CHILDREN WITH ADDITIONAL NEEDS

Children with additional needs must have a Personal Emergency Evacuation Plan. Staff must be aware of children who have plans in place and the support measures which to be followed to keep all children safe.

Children with additional needs may experience a sensory overload due to a change in routine and the noise of the fire alarm sounding. To support self-regulation and co-regulation, consider including comforting objects in your emergency bag that a child can hold whilst the evacuation is in process.

02 Fire safety policy

Alongside associated procedures in 02.1 Fire safety, this policy was adopted by *Eton Pre-School* on 21/02/2026

Designated Fire Marshalls are: Tessa Snell and Susan Clifford

Aim

Eton Pre-School is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements about fire safety and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and a duty of care for those who work in and receive a service from our provision, but individual employees and service users also have a responsibility to ensure their own safety as well as that of others. Risk assessment is the key means through which this is achieved.
- A fire safety risk assessment is carried out by a competent person in accordance with the Regulatory Reform (Fire Safety) Order 2005.
- A Fire Log is completed and regularly updated.
- Necessary equipment is in place to promote fire safety.
- Our landlord regularly checks equipment and is responsible for ensuring this is done

02 Fire safety procedures

02.1 Fire safety

The setting manager or named fire marshal at Eton Pre-school has access to, or a copy of, the fire safety procedures specific to the building and ensure they align with these procedures. The setting manager/fire marshal makes reasonable adjustments as required to ensure the two documents do not contradict each other.

Fire safety risk assessment

02.1a Fire safety risk assessment form is carried out in each area of the setting by a competent person, or a named fire marshal, using the five steps to fire safety risk assessment as follows:

1. Identify fire hazards

- Sources of ignition.
- Sources of fuel.
- Sources of oxygen (including oxygen tanks for disabled children).

2. Identify people at risk

- People in and around the premises.
- People especially at risk including very young babies, less ambulant disabled children or those using specialised equipment, such as splints, standing frames.

3. Evaluate, remove, reduce and protect from the risk

- Evaluate the risk of the fire occurring.
- Evaluate the risk to people from a fire starting on the premises.
- Remove and reduce the hazards that may cause a fire.
- Remove and reduce the risks to people from a fire.

4. Record, plan, inform, instruct, train

- Record significant findings and action taken.
- Prepare an emergency plan.
- Inform and instruct relevant people; inform and co-operate with others.
- Provide training.

5. Review

- Keep assessment under review and revise when necessary.

The fire safety risk assessment focuses on the following for each area:

- Electrical plugs, wires, sockets.
- Electrical items.
- Gas boilers.
- Cookers.
- Matches.
- Flammable materials, including furniture, furnishings, paper etc.
- Flammable chemicals (which are also covered in COSHH).
- Means of escape.
- Any other, as identified.

Fire safety precautions include:

- All electrical equipment is checked by a qualified electrician bi-annually.
- Any faulty electrical equipment is taken out of use
- Sockets are at a safe height
- Water and electrical items do not come into contact; staff do not touch electrical items with wet hands.
- All fire safety equipment is checked annually.
- Gas boilers and cookers are checked and serviced annually by a Gas Safe registered engineer.
- If matches are used in the kitchen, they are kept in a cupboard

Fire Drills

- Fire Drills (to include emergency evacuation procedures and lock down) are held at least termly.
- Drills are recorded, including:
 - date of drill
 - staff involved and numbers of children
 - how long it took to evacuate
 - any reason for a delay in achieving the target time and how this will be remedied

Fire precautions

- Fire exit signs are the green 'running man' signs and are in place and clearly visible.
- Fire exits by doors are those that show a green light at night.
- Fire doors are not locked during normal working hours.

- Fire evacuation notices are in every room; these are displayed in print large enough to read from a short distance. They say where the assembly point is.
- Fire alarms are in place and tested regularly, and where necessary supplemented with visual warnings. This is recorded.
- Heat alarms are in place and tested regularly. This is recorded by the landlord
- A fire blanket is in place in the kitchen (and any other location where there is a cooker).
- Fire extinguishers are in place and are appropriate.

Further guidance

[Dynamic Risk Management](#) (Alliance Publication)

03 Food safety and nutrition policy

Alongside associated procedures in 03.1-03.6 Food safety and nutrition, this policy was adopted by *Eton PreSchool* on 10/01/2026

Aim

Eton Pre-School is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for food safety and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare requirements.

Objectives

- We recognise that we have a corporate responsibility and duty of care for those who work in and receive a service from Eton Pre-School but individual employees and service users also have responsibility for ensuring their own safety as well as that of others. Risk assessment is the key means through which this is achieved.
- Procedure 01.3 Kitchen is followed for general hygiene and safety in food preparation areas.
- We provide nutritionally sound snacks which promote health and reduce the risk of obesity and heart disease that may begin in childhood.
- We ensure that children are supervised at mealtimes and that children are within sight and hearing of a member of staff at all times **and where possible staff are sitting facing children when eating to ensure they are eating in a way that prevents choking and so they can prevent food sharing and be aware of any unexpected allergic reactions.**
- We follow the main advice on dietary guidelines and the legal requirements for identifying food allergens when planning snack menus based on the four food groups:
 - meat, fish, and protein alternatives
 - milk and dairy products
 - cereals and grains
 - fresh fruit and vegetables.
- Following dietary guidelines to promote health also means taking account of guidelines to reduce risk of disease caused by unhealthy eating.
- Parents/carers share information about their children's particular dietary needs and allergies with staff when they enrol their children and on an on-going basis with their key person. This information is shared with all staff who are involved in the care of the child.
- We take into account every child's individual development needs and work in partnership with parents/carers to help children to move on to the next stage of eating as per the guidance listed below.

- **Eton PreSchool ensures that all staff are aware of the symptoms and treatments for allergies and anaphylaxis and the differences between allergies and intolerances which may develop at any time.**
- Foods provided by the setting for children have any allergenic ingredients identified at the point of delivery
- Care is taken to ensure that children with food allergies do not have contact with food products that they are allergic to. If a child is intolerant to a food group we will aim to support this in every way within the setting but may not be able to ban the food group from the setting
- We notify Ofsted of any food poisoning affecting two or more children in our care as soon as possible and at least within 14 days.
- Risk assessments are conducted for each individual child who has a food allergy.
- If a child chokes at mealtime and intervention is given. We record details of the incident and ensure that parents/carers are informed.

03 Food safety and nutrition procedures

03.1 Food preparation, storage and purchase

General

- All staff have up to date certificated training on food safety.
- The setting manager is responsible for ensuring that the requirements in Safer Food Better Business are implemented.
- The setting manager is responsible for overseeing all food handlers to ensure hygiene and allergy procedures are complied with.
- The setting manager and health and safety officer maintain a Food Allergy and Dietary Needs record with:
 - a list of all children with known food allergies, intolerances or dietary needs updated at least once a term This is displayed for all staff and the risk assessment shared.
 - a record of menus along with any allergens
- The setting manager is responsible for informing the directors and Ofsted about any two or more incidents of food poisoning on the premises. Notification must be made as soon as possible and within 14 days of the incident.

Purchasing and storing food

- Food is purchased from reputable suppliers.
- Pre-packed food is checked for allergen ingredients and this information is communicated to parents when requested alongside menu information
- Parents/carers are requested not to bring food that contains (or may contain) nuts. Staff check packets to make sure they do not contain nuts or nut products.
- All opened dried food stuffs are stored in airtight containers.
- Food is regularly checked for sell by dates and any expired items are discarded.
- Items are not stored on the floor; floors are kept clear so they can be easily swept.
- Soft fruit and easily perishable vegetables are kept in the fridge at 1- 5 Celsius.
- Packaged frozen food should be used by use by dates.
- Food left over should not be frozen unless it has been prepared for freezing,
- Freezer containers should be labelled, dated and used within 1-3 months.
- Fridge and freezer thermometers should be in place. Recommended temperatures for fridge 37 degrees Fahrenheit (3 degrees Celsius), and freezers 0 degrees Fahrenheit (-18 degrees Celsius). Temperatures must be recorded daily to ensure correct temperatures are being maintained.

- Freezers are defrosted regularly
- Fruit and vegetables stored in the fridge are washed thoroughly unless in pre-packed bags before refrigeration to reduce risk of pests and E. coli contamination.
- Staff's own food or drink should be kept in separate designated area of the fridge; where possible.
- Items in fridges must be regularly checked to ensure they are not past use by dates.

Preparation of food

- Food handlers must check the content of food/packets to ensure they do not contain allergens.
- Food allergens must be identified on the menus and be available for parents
- Food handlers wash hands and cover any cuts or abrasions before handling food.
- Separate boards and knives are used for chopping food, usually colour coded.
- Raw and cooked foods are prepared separately.
- All vegetables and fruit are washed before preparing.
- Where a microwave is used, food is cooked to above 70 degrees and checked with a probe
- Microwaved food is left to stand for a few minutes before serving.
- A food probe is used to check temperature of food, including where heated in a microwave; it is checked in several places to avoid hot spots.
- Food is cooked in time for serving and is not prepared in advance of serving times.
- Food cooked for vegetarians does not come into contact with meat or fish or products.
- Food cooked and prepared for children with specific dietary needs is cooked in separate dishes
- A separate toaster is kept and used for children with a wheat or gluten allergy.

Serving Food

- The Manager is responsible for ensuring that the food being provided meets all the requirements for each child.
- Staff risk assess the likelihood of children with dietary restrictions accessing the food of other children and must take appropriate action to prevent this from happening, for example:
 - check the list of children's dietary requirements displayed in the kitchen
 - name labels or
 - place mats
- Children with allergies/food preferences are not made to feel 'singled out' by the methods used to manage their allergy/food preference.

- Tables are cleaned before and after, with soapy water or a suitable non-bleach product.
- Members of staff serving food wash their hands and cover any cuts with a blue plaster.

E.coli prevention

Staff who are preparing and handling food, especially food that is not pre-prepared for consumption e.g. fruit and vegetables grown on the premises, must be aware of the potential spread of E.coli and must clean and store food appropriately

03 Food safety and nutrition procedures

03.2 Food for play and cooking activities

- Food for play may include dough, corn flour, pasta, rice, food colourings/flavourings.
- Jelly may only be used for play if it is vegetarian, Jelly cubes are not used
- Food for play does not include allergens that children in the setting have allergies/intolerances to
- Staff are constantly alert to the potential hazards of food play, in particular choking hazards and signs of previously undetected allergies.
- Pulses are not recommended as they can be poisonous when raw or may choke.
- Dried food that is used for play should be identified from food used for cooking.
- Foods that are cooked and used for play, such as dough, should be regularly changed
- Cornflower and cooked pasta are discarded after an activity; high risk of bacteria forming.
- Utensils used for play food are washed thoroughly after use.

Children's cooking activities

- Before undertaking any cooking activity with children, members of staff should check for allergies and intolerances by checking children's records.
- Children are taught basic hygiene skills such as the need to wash hands thoroughly before handling food, and again after going to the toilet, blowing their nose or coughing.
- The area to be used for cooking is cleaned;
- Children should wear aprons that are used just for cooking.
- Utensils provided are for children to use only when cooking, including chopping/rolling boards, bowls, wooden spoons, jugs, and are stored in the kitchen.
- Members of staff encourage children to handle food in a hygienic manner.
- Cooked food to go home is kept safe and covered if possible

Food play activities are suspended during outbreaks of illness.

There is a very small risk of E Coli from raw flour and cornflour and rice may also contain Food bacteria organisms. We believe that these opportunities for learning and development are vital for children and so we risk assess these opportunities and ensure children are given the tools to understand the risks.

03 Food safety and nutrition procedures

03.4 lunch boxes/snacks

Food provides a healthy, balanced diet for growth and development. Foods containing any of 14 allergens identified by the FSA are identified in the kitchen. Dietary guidance to promote health and reduce risk of disease is followed. When planning snacks, the setting manager ensures that:

- Parents/carers must share information about their children's particular dietary needs with staff when they enrol their children.
- Parents are requested to provide a healthy and balanced lunch for their children
- We will reheat food (except rice) up to a safe temperature when preparing lunch
- All food will be stored in our catering fridge and the temperature is controlled and recorded
- All parents who provide lunch will need to supply it in a solid washable lunch box which should be cleaned daily.
- All lunch boxes must contain an allergen sticker to allow us to control items coming in to the setting and ensure they do not contain nuts and sesame
- All snacks will be healthy and nutritionally considered.
- Cookery sessions will aim to be low or no sugar and will promote healthy eating.

Where children have packed lunches, staff promote healthy eating, ensuring that parents/carers are given advice and information about what is appropriate content for a child's lunch box.

03 Food safety and nutrition procedures

03.5 Meeting dietary requirements

Snack and mealtimes are an important part of the day at Eton. Eating represents a social time for children and adults and helps children to learn about healthy eating. We aim to provide nutritious food, which meets the children's individual dietary needs and preferences.

- Staff discuss and record children's dietary needs, allergies and any ethnic or cultural food preferences with their parents/carers. A child's special dietary requirements are recorded on registration to the setting and information is shared with all staff. **This continues as an ongoing dialogue with all parents throughout their time at Eton Pre-School**
- If a child has a known food allergy, procedure 04.4 Allergies and food intolerance is followed.
- Staff record information about each child's dietary needs in the individual child's registration form; parents/carers sign the form to signify that it is correct.
- Up-to-date information about individual children's dietary needs is displayed so that all staff and volunteers are fully informed.
- Staff ensure that children receive only food and drink that is consistent with their dietary needs and cultural or ethnic preferences, as well as their parent/carer's wishes. At each mealtime, a member of staff is responsible for checking that the food provided meets the dietary requirements for each child.
- Through on-going discussion with parents/carers and research by staff, staff obtain information about the dietary rules of religious groups to which children and their parents belong, and of vegetarians and vegans, as well as food allergies. Staff take account of this information when providing food and drink.
- All staff show sensitivity in providing for children's diets, allergies and cultural or ethnic food preferences. A child's diet or allergy is never used as a label for the child, they are not made to feel 'singled out' because of their diet, allergy or cultural/ethnic food preferences.
- Fresh drinking water is available throughout the day. Staff inform children how to obtain the drinking water and that they can ask for water at any time during the day.

Selective eating

- Staff work in partnership with parents/carers to support them with children who are showing signs of 'food preference or aversion' and sign post them to further advice,
- Children who are showing signs of 'strong food preferences, or aversions to food' are encouraged to try new food items

04 Health policy/Medication/Allergies

this policy was adopted by *Eton Pre-School* on 5//9/2025

Aim

Eton Pre-School is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. They meet all statutory requirements for promoting health and hygiene and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare requirements.

Objectives

We promote health through:

- Ensuring emergency and first aid treatment is given where necessary.
- Ensuring that medicine necessary to maintain health is given correctly and in accordance with legal requirements.(or as prescribed)
- Identifying allergies and preventing contact with the allergenic substance.
- Having ongoing discussions with parents/carers to develop allergy action plans for managing individual children's known allergies and intolerances.
- Ensuring that all staff are aware of the symptoms and treatments for allergies and anaphylaxis and that children can develop these at any time.
- Ensuring that all staff know the difference between allergies and intolerances.
- Identifying food ingredients that contain recognised allergens and displaying this information for staff
- Taking the necessary steps to prevent the spread of infection and taking appropriate action when children are ill to promote health
- Ensuring that any food prepared in the setting is in line with the child's individual developmental needs.
- Ensuring that food is prepared for children in a way that aims to prevents choking appropriate to their development
- Provide suitable chairs in eating areas and encourage all food to be consumed sitting down.
- Ensuring that children are always in sight and hearing of a staff member, who is a paediatric first aider, whilst eating and the staff member is sat facing the children whenever practicably possible.
- Recording all choking incidents that requires intervention.
- Promoting healthy lifestyle choices through diet and exercise.
- Pandemic flu planning or illness outbreak management as per DfE and World Health Organisation (WHO) guidance.

04 Health procedures

04.1 Accidents and emergency treatment

Person responsible for checking and stocking first aid box: *Tessa Snell*

The setting provides care for children and promotes health by ensuring emergency and first aid treatment is given as required. There are also procedures for managing food allergies in section 03 Food safety and nutrition and 04 Health/Medicines and allergies

- Parents/carers' consent to emergency medical treatment consent on registration.
- We Expect all of our staff to be PFA trained. We ensure that the training provider who delivers PFA training to our staff are competent.
- Students and trainees that have PFA training may be included in ratios at the level below their level of study if we are satisfied that they are competent and responsible.
- First Aid certificates are renewed at least every three years. In line with the EYFS, all staff who obtained a level 2 and/or level 3 qualification since 30 June 2016 must obtain a PFA qualification within three months of starting work to be counted in ratios.
- All members of staff know the location of First Aid boxes, the contents of which are suitable for the size of the setting and follow medical guidelines, Non-Latex single use gloves are also kept near to the box, as well as a thermometer.
- We keep ice packs available for use in minor injuries
- For minor injuries and accidents, First Aid treatment is given by a qualified first aider; the event is recorded in the setting's Accident Record book. Parents/carers may have a copy of the accident form.
- In the event of minor injuries or accidents, parents/carers are normally informed when they collect their child however if staff are concerned they will ring the parent to discuss possible collection.

Serious accidents or injuries

- An ambulance is called for children requiring emergency treatment.
- First aid is given until the ambulance arrives on scene. If at any point it is suspected that the child has died, 06.7 Death of a child on site procedure is implemented and the police are called immediately.
- The registration form/health care plan is taken to the hospital with the child.
- Parents/carers are contacted and informed of what has happened and where their child is being taken to.
- If the parents/carers do not arrive at the setting before the ambulance sets off for the hospital, a senior member of staff accompanies the child and remains with them until the parent/carer arrives.
-

Recording and reporting

- In the event of a serious accident, injury, or serious illness, the setting manager notifies the Chair of trustees as soon as possible.
- If required, a RIDDOR form is completed; one copy is sent to the parent/carer, one for the child's file and one for the local authority Health and Safety Officer. Or as advised by RIDDOR
- Notification to Ofsted is made as soon as is reasonably practicable and always within 14 days of the incident occurring. The designated person will, after consultation with the Chair of trustees, inform local child protection agencies of these events in line with government guidelines. The reporting for this is on the government website.

04 Health procedures

04.2 Administration of medicine

Only qualified PFA staff will administer medicine and this must be witnessed by another member of staff.

Administering medicines during the child's session will only be done if necessary.

If a child has not been given a prescription medicine before, it is advised that parents keep them at home for 48 hours to ensure no adverse effect, and to give it time to take effect. The setting managers must check the insurance policy document to be clear about what conditions must be reported to the insurance provider.

Consent for administering medication

- Only a person with parental responsibility (PR), or a foster carer may give consent.
- All medication will be signed in and checked by a senior member of the team
- Staff who receive the medication, check it is in date and prescribed specifically for the current condition. It must be in the original container (not decanted into a separate bottle). It must be labelled with the child's name and original pharmacist's label if prescribed.
- Medication dispensed by a hospital pharmacy will not have the child's details on the label but should have a dispensing label. Staff must check with parents/carers and record the circumstance of the events and hospital instructions as relayed to them by the parents/carers.
- The medication record book will be filled in including
 - full name of child and date of birth
 - name of medication and strength
 - who prescribed it (if applicable)
 - dosage to be given
 - how the medication should be stored and expiry date
 - signature and printed name of parent/carer and date
 - We would expect the information leaflet with side effects to be included with the medication.

Storage of medicines

All medicines are stored safely. Refrigerated medication is stored separately in a marked bag/box in the main kitchen fridge.

- For some conditions, medication for an individual child may be kept at the setting. 04.2a Healthcare plan form must be completed. The health and safety officer check that it is in date and return any out-of-date medication to the parent/carer.

Record of administering medicines

A record of medicines administered is kept near to the medicine cabinet

- No child may self-administer.
- The medication records are monitored to look at the frequency of medication being given
- **Children with long term medical conditions requiring ongoing medication**
- Health care plans will be required for all children who require medication to be left on site. ‘
- A risk assessment may be necessary
- Eton Pre-School will ensure further training for specific medical needs will be sought and health professionals will be consulted about the needs of the child..

Managing medicines on trips and outings

- All emergency medication accompanies children on outings in a safe grab bag. This is carried by a senior member of the team.
- Medication is taken in a plastic bag labelled with the child's name, The medication record will also be required or a suitable alternative record
- Medication will be taken to hospital in an emergency
- **Staff taking medication**

Staff taking medication must inform their manager. The medication must be stored securely in staff lockers or in the secondary first aid box. The manager must be made aware of any contra-indications for the medicine so that they can risk assess and take appropriate action if required.

)

04 Health procedures

04.3 Life-saving medication and invasive treatments

Life-saving medication and invasive treatments may be required for children and adults in our setting

- Children with complex and/or long-term health conditions have a health care plan in place which considers the principles and best practice guidance.
- Staff have appropriate training for administration of treatment and are aware of infection control best practice, for example, using personal protective equipment (PPE).
- Key persons speak directly to the child, explaining what they are doing as appropriate to the child's age and level of comprehension.
- Children's privacy is considered and balanced with safeguarding and support needs when changing clothing, nappies and toileting.

Record keeping

For a child who requires invasive treatment the following must be in place from the outset:

- a letter from the child's GP/consultant stating the child's condition and what medication if any is to be administered
- written consent from parents/carers allowing members of staff to administer medication
- proof of training in the administration of medication this may need to be from the child's GP, a district nurse, children's nurse specialist or a community paediatric nurse
- a healthcare plan

Our insurance company will need to be informed and they will need to provide written consent before the child starts in our setting. A record is made in the medication record book of the intimate/invasive treatment each time it is given.

Physiotherapy

- Children who require physiotherapy whilst attending the setting should have this carried out by a trained physiotherapist.
- If it is agreed in the health care plan that the key person should undertake part of the physiotherapy regime then the required technique must be demonstrated by the physiotherapist personally; written guidance must also be given and reviewed regularly. The physiotherapist should observe the educator applying the technique in the first instance.

-

Safeguarding/child protection

- Educators recognise that children with SEND are particularly vulnerable to all types of abuse, therefore the safeguarding procedures are followed rigorously.
- If an educator has any concerns about physical changes noted during a procedure, for example unexplained marks or bruising then the concerns are discussed with the designated safeguarding lead and the relevant procedure is followed.

Treatments such as inhalers or Epi-pens must be immediately accessible in an emergency.

04 Health procedures

04.4 Allergies and food intolerance

Before a child starts at Eton Pre-School, parents/carers are asked if their child has any known allergies or food intolerance. This information is recorded on the registration form. **On going discussions must take place with parents/carers and where appropriate health professionals to develop allergy action plans for managing any known allergies and food intolerances. This information must be kept up to date on a child's registration form and shared with all staff.**

All staff at Eton Pre-School must be aware of the symptoms and treatments for allergies and anaphylaxis and the difference between allergies and food intolerances

- If a child has an allergy a risk assessment form is completed with the following information:
 - the risk identified – the allergen
 - the level of risk, taking into consideration the likelihood of the child coming into contact with the allergen
 - control measures, such as prevention from contact with the allergen
 - review measures
- a Health care plan form must be completed with:
 - the nature of the reaction e.g. anaphylactic shock reaction, including rash, reddening of skin, swelling, breathing problems etc.
 - managing allergic reactions, medication used and method (e.g. Epipen)
- The child's name is added to the Kitchen allergy/food list
- A copy of the risk assessment and health care plan is kept in the child's personal file and is shared with all staff.
- Generally, no nuts or nut products are used within the setting.
- Parents/carers are made aware, so that no nut or nut products are accidentally brought in.
- Any foods containing food allergens are identified on children's menus.

Oral Medication

- Oral medication must be prescribed or have manufacturer's instructions written on them.
- All risk assessment procedures are adhered to for the correct storage and administration of the medication. We do not provide/use liquid paracetamol or Nurofen unless under medical advice

04 Health procedures

04.5a Infection control

Good practice infection control is paramount in Eton Pre-School Young children's immune systems are still developing, and they are therefore more susceptible to illness.

Prevention

- Minimise contact with individuals who are unwell by ensuring that those who have symptoms of an infectious illness do not attend settings and stay at home for the recommended exclusion time.
- Always clean hands thoroughly, and more often than usual where there is an infection outbreak.
- Ensure good respiratory hygiene amongst children and staff by promoting 'catch it, bin it, kill it' approach.
- Where necessary, for instance, where there is an infection outbreak, wear appropriate PPE.

Response to an infection outbreak

- Manage confirmed cases of a contagious illness by following the guidance from the [UK Health Security Agency \(UKHSA\)](#)

Informing others

Early years providers have a duty to inform Ofsted of any serious accidents, illnesses or injuries as follows:

- Anything that requires resuscitation.
- Admittance to hospital for more than 24 hours.
- A broken bone or fracture.
- Dislocation of any major joint, such as the shoulder, knee, hip or elbow.
- Any loss of consciousness.
- Severe breathing difficulties, including asphyxia.
- Anything leading to hypothermia or heat-induced illness.

In some circumstances this may include a confirmed case of a Notifiable Disease in their setting, if it meets the criteria defined by Ofsted above. Please note that it is not the responsibility of the setting to diagnose a notifiable disease. This can only be done by a clinician (GP or Doctor). If a child is displaying symptoms that indicate they may be suffering from a notifiable disease, parents must be advised to seek a medical diagnosis, which will then be 'notified' to the relevant body. Once a diagnosis is confirmed, the setting may be contacted by the UKHSA or may wish to contact them for further advice

04. Health procedures

04.6 Oral health

Eton Pre-School provides care for children and promotes health through promoting oral health and hygiene, encouraging healthy eating, healthy snacks and encouraging tooth care.

- Fresh drinking water is always available and easily accessible.
- Sugary drinks are not served.
- Only water and milk are served with morning and afternoon snacks.
- Children are offered healthy nutritious snacks with no added sugar.
- Parents/carers are discouraged from sending in confectionary as a snack or treat.
- Regular discussion about tooth brushing and oral care take place
- Concerns about oral hygiene are discussed with parents/carers
- Children are taught to drink from an open cup . Occasional use of straws to facilitate this is allowed
- Books and visual materials are used to support oral hygiene

Pacifiers/dummies

- Parents/carers are *advised* to stop using dummies/pacifiers once their child is 12 months old.
- Dummies are not allowed in the setting
-

05 Promoting inclusion, equality and valuing diversity policy

Alongside associated procedures in 05.1 Promoting inclusion, equality and diversity, this policy was adopted by *Eton Pre-School* on 19/02/2026

All early years providers must consider and meet relevant employer and service provider duties as set out in the Equality Act (2010). Those in receipt of funding must eliminate discrimination including indirect, direct discrimination, discrimination and harassment based on association and perception and discrimination for reason relating to a disability or by failing to make a reasonable adjustment to any provision, criterion, or practice. This duty is anticipatory. Providers must advance equality of opportunity and foster good relations with individuals and groups with protected characteristics namely disability, race (ethnicity), religion and belief, sexual orientation, sex (gender), gender reassignment, age, pregnancy and maternity, marriage, and civil partnership.

Aim

Eton Pre-School actively promotes inclusion, equality of opportunity and the valuing of diversity.

Objectives

We support the definition of inclusion as stated by the Early Childhood Forum:

'Inclusion is the process of identifying, understanding and breaking down the barriers to participation and belonging.'

We interpret this as consisting of several tasks and processes in relation not only to children but also to parents and visitors in the setting. These tasks and processes include awareness and knowledge of relevant barriers to inclusion for those with a protected characteristic namely:

- disability
- gender reassignment
- pregnancy and maternity
- race
- religion or belief
- sexual orientation
- sex (gender)
- age
- marriage or civil partnership (in relation to employment)

This includes unlawful behaviour towards people with protected characteristics. Unlawful behaviour being direct discrimination, indirect discrimination, associative discrimination, discrimination by perception,

Policies & Procedures for the EYFS 2025/26 (Early Years Alliance 2025)

harassment, and victimisation (in addition, we are aware of the inequality that users facing socio-economic disadvantaged may also encounter). We will not tolerate behaviour from an adult which demonstrates dislike and prejudice towards groups and individuals living outside the UK (xenophobia). This also applies to the same behaviour towards specific groups of people and individuals who are British Citizens residing in the UK.

We promote understanding of discrimination - through training and staff development - the causes and effects of discrimination on both adults and children and the long- term impact of discrimination; the need to protect children from discrimination and ensure that early years practice is both accessible and inclusive; the need for relevant support to allow children to develop into confident adults with a strong positive self-identity.

- Developing practice that includes:
 - Developing an environment which reflects the 'kaleidoscope' of factors that can provide settings with a myriad of influences and ideas for exploring and celebrating difference.
 - Ensuring that barriers to inclusion are identified and removed or minimised wherever possible;
 - Understanding, supporting and promoting the importance of identity for all children and recognising that this comprises multiple facets which are shaped by a 'kaleidoscope' of factors including British values, 'race' ethnicity and culture, gender, difference of ability, social class, language, religion and belief, and family form and lifestyle, which combine uniquely in the identity of each individual; for example, we welcome and promote bi/multi-lingualism and the use of alternative communication formats such as Makaton, and we promote gender equality while at the same time recognising the differences in play preferences and developmental timetables of girls and boys.
 - Recognising that this 'kaleidoscope' also reflects negative images which may be internalised and negatively affect the development of self-concept, self-esteem, and confidence.
 - Promoting a welcoming atmosphere that genuinely appreciate British values, different cultural and personal perspectives, without stereotyping and prejudicing cultures and traditions on raising children, by always involving parents.
 - Promoting community cohesion and creating an environment that pre-empts acts of discrimination so that they do not arise.
 - Recruitment of staff to reflect cultural and language diversity, staff with disability, and staff of both genders.
 - Addressing discrimination as it occurs from children in a sensitive, age-appropriate manner to ensure that everyone involved understands the situation and are offered reassurance and support to achieve resolution.

- Challenging discriminatory behaviour from parents, staff or outside agencies or individuals that affect the well-being of children and the early years community.
- Creating an ethos within which staff work confidently within a culturally complex environment; learning when to change or adapt practice in the setting and having the confidence to challenge practice (including parental) that is not in the child's best interest, seeking support and intervention from agencies where appropriate.
- Ensuring that educators work closely with the Special Educational Needs Coordinator (SENCO) to make sure that the additional needs of all children are identified and met.
- We are aware of anti-discriminatory legislation and able to use it to shape the service and support parents and children against discrimination in the local community, for example, against asylum seekers, the Travelling community and same sex parents.
- We regularly monitor and review our practice including long-term preventative measures to ensure equality. In addition, short term measures such as recognition and assessment of children's additional support needs (e.g. impairment, home language, family hardship, specific family beliefs and practices), day-to-day activities, provision of suitable support and resources, activity programme and curriculum., assessment, recognition of special educational needs and developing inclusive relationships.

05 Equality procedures

05.1 Promoting inclusion, equality and valuing diversity

Eton Pre-School actively promotes inclusion, equality of opportunity and value diversity. All early years providers have legal obligations under the Equality Act 2010. Those in receipt of public funding also have public equality duties to eliminate discrimination, promote equality, foster good relations with individuals and groups with protected characteristics namely disability, race (ethnicity), religion and belief, sexual orientation, sex (gender), gender reassignment, age, pregnancy and maternity, marriage and civil partnership. Providers also have obligations under the Prevent Duty (2015 updated 2023) which highlights the need to foster equality and prevent children from being drawn into harm and radicalisation.

Promoting identity, positive self-concept and self-esteem for all children through treating each child as an individual and with equal concern, ensuring each child's developmental and emotional needs are recognised and met.

- Promoting inclusive practice to ensure every child is welcomed and valued.
- Discussing aspects of family/child identity with parents/carers when settling in a new child.
- Maintaining a positive non-judgemental attitude and use of language with children to talk about topics such as family composition/background, eye and skin colour, hair texture, sex, gender, physical attributes and languages spoken.
- Becoming knowledgeable about different cultures and individual subjective perceptions of these and being able to reflect them imaginatively and creatively in the setting to create pride, interest and positive self-identity.
- Discussing similarities and differences positively without bias and judgement.
- Celebrating festivals, holy days and special days authentically through involving parents, staff or the wider community to provide a positive experience for all. We aim to celebrate celebrations that are most relevant to the children attending,
- Providing books with positive images of children and families from all backgrounds and abilities. Avoiding caricatures or cartoon-like depictions and ensuring individual differences are portrayed with sensitive accuracy. The central characters in individual stories should provide a positive, broad representation of diversity e.g. disability, ethnicity, sex and gender, age and social backgrounds. Individual storylines should contain a range of situations which are easily identifiable by children such as those that include disabled children/adults, different ethnic groups, mixed heritage families, gender diversity, single sex/same and different sex families, multi-generational households and cultural diversity.
- Using textiles, prints, sculptures or carvings from diverse cultures in displays.

- We aim to provide artefacts from a range of cultures, particularly for use in all areas of the setting, not just in the home corner.
- Ensuring toys, learning materials and resources reflect diversity and provide relevant materials for exploring aspects of difference, such as skin tone paints and pens.
- Developing a range of activities through which children can explore aspects of their identity, explore similarities, differences and develop empathy including providing literacy materials reflecting their languages and ethnicity
- Record keeping that refers to children's emerging bilingual skills or their use of sign language as achievements in positive terms.
- Record keeping that refers to children's differing abilities and identities in positive terms.
- Records that show the relevant involvement of all children, especially children with special educational needs and disabilities, those using English as an additional language and those who are 'more abled' in the planning of their care and education.

Fostering positive attitudes and challenging discrimination.

- Young children are learning how to grow up in a diverse world and develop appropriate attitudes. This can be difficult, and they may make mistakes and pick up inappropriate attitudes or just get the 'wrong idea' that may underlie attitudes of 'pre-prejudice' towards specific individuals/groups. Where children make remarks or behave in a discriminatory or prejudice way or make inappropriate comments that arise from not knowing facts, staff should explain why these actions are not acceptable and provide appropriate information and intervention to reinforce children's understanding and learning.
- Where children make overtly prejudice or discriminatory remarks they are dealt with as above, and the issue is raised with the parents/carers.
- When children wish to explore aspects of their identity such as ethnicity or gender, they should be listened to in an understanding and non-judgemental way.
- Parents/carers are expected to abide by the policy for inclusion, diversity and equality and to support their child in the aims of the setting.

Implementing an equality strategy to foster a 'can do' approach

- Every provider should have an equality strategy in place outlining their vision on equality alongside a timetabled list of actions summarising how they build equality into the provision and how this is monitored and evaluated.
- An equality check and access audit are completed to ensure that there are no barriers to inclusion of any child, families and visitors to the setting.

- Early years providers in receipt of nursery education funding are covered by the public sector equality duty. These bodies must have regard of the need to eliminate discrimination, promote equality of opportunity, foster good relations between disabled and non-disabled persons, and publish information to show their compliance with the duty.

Promoting dynamic and balanced mixed gender, culturally, socially, and linguistically diverse staff teams who work constructively together in providing for diverse communities.

- It is recognised that members of staff in diverse teams bring a range of views and opinions to the setting regarding a range of issues to do with the job. It is important that a range of views and perspectives are shared and respected in staff meetings and that decisions are made on which way of looking at the situation will result in the best outcomes for the child.
- Staff views are sought where these offer individuals, social and/or cultural insight, although staff should not be put in an uncomfortable position of being an 'expert' or 'ambassador'.
- Staff respect similarities and differences between each other and users such as ability, disability, religious and personal beliefs, sex, sexual orientation, gender reassignment etc. Staff do not discriminate or harass individuals on the grounds of these or encourage any other member of staff to do so; evidence of such will be dealt with by management immediately.
- Members of staff make the best use of different perspectives in the team to find solutions to difficult problems that arise in socially/culturally complex situations.
- Members of staff support each other to highlight similarities and respect differences.
- Members of staff carry out all tasks according to their job description regardless of gender.
- Staff are sensitive to the fact that male workers are under-represented in the early years workforce so may be more likely to experience inequality and discrimination.
- Staff should be aware that male workers may be more vulnerable to allegations. Therefore, work practices should be developed to minimise this. These practices are valuable for all staff.
- Where staff may feel threatened, or under attack, from discriminatory behaviour, staff and managers follow procedure 01.12 Threats and abuse towards staff and volunteers.
- There is an ethos wherein staff, parents/carers and children are free to express themselves and speak their own languages in ways that enhance the culture of the setting.

Ensuring that barriers to equality and inclusion are identified and removed or minimised wherever possible.

- Barriers may include:
 - lack of understanding - where the language spoken at the setting is not that which is spoken at a child's home

- perceived barriers – affordability where parents/carers are not aware of financial support available or assume that a service is not available to them. Perceived barriers may also be physical barriers for those children or parents with a disability or additional needs where they assume, they will not be able to access the service
 - physical barriers – where there are environmental features which stop a disabled child or disabled parent accessing the setting such as stairs
 - negative attitudes – stereotypes and prejudices or commitment by staff and managers to the time and energy required to identify and remove barriers to accessibility
 - unconscious and conscious bias of staff towards some families such as those from other backgrounds, disabled parents/carers, same sex parents/carers and families with specific religious beliefs
 - gendered views of staff which limit children’s aspirations and choices
 - lack of effective Information Communication Technology (ICT) in the homes of families who are vulnerable or at risk and therefore unable to keep in close contact with the childcare provider
- Staff are aware of the different barriers to inclusion and equality and consider the wider implications for children and their families.

Supporting children to become considerate adults

- Children’s social and emotional development is shaped by early experiences and relationships and incorporates elements of equality and British and Universal values. The EYFS supports children’s earliest skills in an age appropriate way to become social citizens, namely listen and attend to instructions; know the difference between right and wrong; recognise similarities and differences between themselves and others; make and maintain friendships; develop empathy and consideration of other people; take turns in play and conversation; risk taking behaviours, rules and boundaries; not to hurt/upset other people with words and actions; consequences of hurtful/discriminatory behaviour and regulating behaviour.

British values

The fundamental British values of democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs are already implicitly embedded in the Early Years Foundation Stage.

Democracy: making decisions together

- For self-confidence and self-awareness (PSED), educators encourage children to see the bigger picture, children know their views count, value each other’s views and values and talk about feelings e.g. when they do or do not need help.

- Supporting the decisions children make and providing activities that involve turn-taking, sharing and collaboration. Children are given opportunities to develop enquiring minds, where questions are valued and prejudice attitudes less likely.

Rule of law: understanding rules matter (PSED)

- Educators ensure children understand their and others' behaviour and consequence.
- Educators collaborate with children to create rules and codes of behaviour, e.g. rules about tidying up and ensure all children understand that rules apply to everyone.

Individual liberty: freedom for all (PSED & UW)

- Children should develop a positive sense of themselves. Staff provide opportunities for children to develop their self-knowledge, self-esteem and increase their confidence in their own abilities, for example through allowing children to take risks on an obstacle course, mixing colours, exploring facets of their own identity, talking about their experiences and learning. Educators encourage a range of experiences, allow children to explore the language of feelings and responsibility, reflect on differences and understand we are free to have different opinions, for example in a small group discuss what they feel about transferring into Reception Class.

Mutual respect and tolerance: treat others as you want to be treated (PSED & UW)

- Staff create an ethos of inclusivity and tolerance where views, faiths, cultures and races are valued, and children are engaged with the wider community.
- Children should acquire tolerance, appreciation and respect for their own and other cultures; know about similarities and differences between themselves, others and among families, faiths, communities, cultures and traditions.
- Staff encourage and explain the importance of tolerant behaviours such as sharing and respecting other's opinions.
- Staff promote diverse attitudes and challenge stereotypes, for example, sharing stories that reflect and value the diversity of children's experiences and providing resources and activities that challenge gender, cultural/racial stereotyping.

It is not acceptable to:

- actively promote intolerance of other faiths, cultures and races
- fail to challenge gender stereotypes and routinely segregate girls and boys
- isolate children from their wider community
- fail to challenge behaviours (whether of staff, children, or parents/carers) that are not in line with the fundamental values of democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs

06 Safeguarding children, young people and vulnerable adults policy

Alongside associated procedures in 06.1-06.10 Safeguarding children, young people and vulnerable adults, this policy was adopted by Eton Pre-School on 1/1/2026

Designated safeguarding lead is: Susan Clifford

Aim

We are committed to safeguarding children, young people and vulnerable adults and will do this by putting young people and vulnerable adult's right to be '*strong, resilient and listened to*' at the heart of all our activities.

The Early Years Alliance 'four commitments' are broad statements against which policies and procedures across the organisation are drawn to provide a consistent and coherent strategy for safeguarding children young people and vulnerable adults. The four key commitments are:

1. The Alliance is committed to empowering children, young people, and vulnerable adults, promoting their right to be '**strong, resilient, actively listened to, and heard**'.
2. The Alliance upholds a culture of safety in which children, young people and vulnerable adults are protected from abuse and harm in all areas of its curriculum and service delivery.
3. The Alliance is committed to preventing harm and responding promptly and appropriately to all incidents or concerns of abuse that may occur. Working with statutory agencies to achieve the best possible outcomes for every child.
4. The Alliance is dedicated to increasing safeguarding confidence, knowledge and good practice throughout its training and learning programmes for adults, advocating support and representation for those in greatest need.

NB: A 'young person' is defined as 16–19-year-old. In an early years setting, they may be a student, apprentice educator, or parent/carer.

A 'vulnerable adult' (see guidance to the Care Act 2014) as: '*a person aged 18 years or over, who is in receipt of or may need community care services by reason of 'mental or other disability, age or illness and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation*'. In early years, this person may be a service user, parent/carer of a service user, or a volunteer.

Key Commitment 1

- All staff receive adequate training in child protection matters and have access to the setting's policy and procedures for reporting concerns of possible abuse and the safeguarding procedures of the Local Safeguarding Partners.

- All staff have adequate information on issues affecting vulnerability in families such as social exclusion, domestic violence, mental illness, substance misuse and parental learning disability, together with training that takes account of factors that affect children that arise from inequalities of race, gender, disability, language, religion, sexual orientation, or culture.
- We aim to build the emotional and social skills of children and young people who are service users in an age-appropriate way, including increasing their understanding of how to stay safe.
- We adhere to the EYFS Safeguarding and Welfare requirements.

Key Commitment 2

- All staff are trained in line with the Criteria set out in Annex C of the EYFS (November 2025). Safeguarding training is refreshed annually and renewed every two years. The designated safeguarding lead ensures support, advice and guidance for all staff to meet their safeguarding responsibilities by:
 - Regular supervision and appraisals, group supervision, reviewing safeguarding procedures together, quiz's or questionnaires
- There are procedures in place to prevent known abusers from coming into the organisation as employees or volunteers at any level.
- Safeguarding is the responsibility of every person undertaking the work of the organisation in any capacity.
- There are procedures for dealing with allegations of abuse against a member of staff, or any other person undertaking work whether paid or unpaid for the organisation, where there is an allegation of abuse or harm of a child. Procedures differentiate clearly between an allegation, a concern about quality of care or practice and complaints.
- There are procedures in place for reporting abuse of children or a young person in the setting.
- There are procedures in place for reporting safeguarding concerns where a child may meet the s17 definition of a child in need (Children Act 1989) and/or where a child may be at risk of significant harm, and to enable staff to make decisions about appropriate referrals using local published threshold documents.
- There are procedures in place for reporting abuse of a vulnerable adult in the setting.
- There are procedures in place in relation to escalating concerns and professional challenge.
- There are procedures in place for working in partnership with agencies involving a child, or young person or vulnerable adult, for whom there is a protection plan in place. These procedures also take account of working with families with a 'child in need' and with families in need of early help, who are affected by issues of vulnerability such as social exclusion, radicalisation, domestic violence, mental illness, substance misuse and parental learning disability.

- These procedures take account of diversity and inclusion issues to promote equal treatment of children and their families and that take account of factors that affect children that arise from inequalities of race, gender, disability, language, religion, sexual orientation, or culture.
- There are procedures in place for record keeping, confidentiality and information sharing, which are in line with data protection requirements.
- We follow government and Local Safeguarding Partners guidance in relation to extremism.
- The procedures of the Local Safeguarding Partners must be followed.

Key Commitment 3

- We have a 'designated safeguarding lead person', who is responsible for carrying out child, young person, or adult protection procedures.
- The designated safeguarding lead is responsible for overseeing all child, young person or adult protection matters.
- The 'designated safeguarding lead' ensures they have links with statutory and voluntary organisations regarding safeguarding children.
- The 'designated safeguarding lead' ensures they have received appropriate training on child protection matters and that all staff are adequately informed and/or trained to recognise child abuse in the categories of physical, emotional, and sexual abuse and neglect.
- The 'designated safeguarding lead' ensures all staff are aware of the additional vulnerabilities that affect children that arise from inequalities of race, gender, disability, language, religion, sexual orientation, or culture and that these receive full consideration in child, young person, or adult protection related matters.
- The 'designated safeguarding lead ensures that staff are aware and receive training in social factors affecting children's vulnerability including,
 - social exclusion
 - domestic violence and controlling or coercive behaviour
 - mental illness
 - drug and alcohol abuse (substance misuse)
 - parental/Carer learning disability
 - radicalisation
- The 'designated safeguarding lead' ensures that staff are aware and receive training in other ways that children may suffer significant harm and stay up to date with relevant contextual safeguarding matters:
 - abuse of disabled children
 - fabricated or induced illness

- child abuse linked to spirit possession
- sexually exploited children
- children who are trafficked and/or exploited
- female genital mutilation
- extra-familial abuse and threats
- children involved in violent offending, with gangs and county lines.

The 'designated safeguarding lead' ensures they are adequately informed in vulnerable adult protection matters.

Key commitment 4

- There are procedures in place to ensure staff recognise children and families who may benefit from early help and can respond using local early help processes. Designated safeguarding leads should ensure all staff understand how to identify and respond to families who may need early help.
- Staff are supported to make the right decisions that enable timely and appropriate action to be taken.
- Designated safeguarding leads contribute towards local safeguarding arrangements to ensure that the views of the sector are heard at the highest level by:
 - Finding out how education and childcare are represented at a strategic level within their Local Safeguarding Partnership (LSP) structures.
 - Sharing their knowledge of the experiences of children in their cohort with LSP local leaders

6 Safeguarding children, young people and vulnerable adults procedures

06.1 Responding to safeguarding or child protection concerns

The designated safeguarding lead/officer at Eton Pre-School is Susan Clifford, the back-up designated safeguarding lead is Janine Reece,

Safeguarding roles

- All staff recognise and know how to respond to signs and signals that may indicate a child is suffering from or likely to be suffering from harm. They understand that they have a responsibility to act immediately by discussing their concerns with the designated safeguarding lead or a named back-up designated safeguarding lead.
- The manager and deputy are the designated safeguarding lead and back-up designated safeguarding lead, responsible for co-ordinating action taken by the setting to safeguard vulnerable children and adults. The designated safeguarding lead is also responsible for liaising with local statutory children's services and with the Local Safeguarding Partnership.
- All concerns about the welfare of children in Eton Pre-School at home, or elsewhere should be reported to the designated safeguarding lead or the back-up designated safeguarding lead in their absence
- The designated safeguarding lead ensures that all educators are alert to the indicators of abuse and neglect and understand how to identify and respond to these.
- The setting should not operate without an identified designated safeguarding lead at any time.

The designated safeguarding lead / designated officer must remain up to date with Ofsted reporting and notification requirements.

- If there is an incident, which may require reporting to RIDDOR the designated officer will report this to the directors. There continues to be a requirement that the designated officer follows legislative requirements in relation to reporting to RIDDOR.
- Eton Pre-School follow procedures of Windsor and Maidenhead Achieving for children Local Safeguarding Partners (LSP) for safeguarding and any specific safeguarding procedures such as responding to radicalisation/extremism concerns. Procedures are followed for managing allegations against staff, as well as for responding to concerns and complaints raised about quality or practice issues, through whistleblowing and escalation.

Responding to marks or injuries observed

- If a member of staff observes or is informed by a parent/carer of a mark or injury to a child that happened at home or elsewhere, the member of staff makes a record of the information given to them by the parent/carer in the prior incident log which is signed by the parent/carer.

- The member of staff advises the designated safeguarding lead as soon as possible if there are safeguarding concerns about the circumstance of the injury.
- If there are concerns about the circumstances or explanation given, by the parent/carer and/or child, the designated safeguarding lead decides the course of action to be taken
- If the mark or injury is noticed later in the day and the parent is not present, this is raised with the designated safeguarding lead.
- If there are concerns about the nature of the injury, and it is unlikely to have occurred at the setting, the designated safeguarding lead decides the course of action required and records the information on the safeguarding reporting form, taking into consideration any explanation given by the child.
- If there is a likelihood that the injury is recent and occurred at the setting, this is raised with the designated safeguarding lead.
- If there is no cause for further concern, a record is made in the Accident Record, with a note that the circumstances of the injury are not known.
- If the injury is unlikely to have occurred at the setting, this is raised with the Manager DSL
- The parent/carer is advised at the earliest opportunity.
- If the parent/carer believes that the injury was caused at the setting this is still recorded in the Accident Record and an accurate record made of the discussion is made on the child's personal file.

Responding to the signs and symptoms of abuse

- Concerns about the welfare of a child are discussed with the designated safeguarding lead without delay.
- A written record is made of the concern on the Safeguarding incident reporting form as soon as possible.
- Concerns that a child is in immediate danger or at risk of significant harm are responded to immediately and if a referral is necessary this is made on the same working day.

Responding to a disclosure by a child

- When responding to a disclosure from a child, the aim is to get just enough information to take appropriate action.
- The member of staff listens carefully and calmly, allowing the child time to express what they want to say.
- Staff do not attempt to question the child but if they are not sure what the child said, or what they meant, they may prompt the child further by saying *'tell me more about that'* or *'show me again'*.
- After the initial disclosure, staff speak immediately to the designated safeguarding lead. They do not further question or attempt to interview a child.

- If a child shows visible signs of abuse such as bruising or injury to any part of the body and it is age appropriate to do so, the key person will ask the child how it happened.
- When recording a child's disclosure their exact words are used as well as the exact words with which the member of staff responded.
- If marks or injuries are observed, these are recorded on a body diagram.

Decision making (all categories of abuse)

- The designated safeguarding lead makes a professional judgement about referring to other agencies, including Social Care using the Local Safeguarding Partnership (LSP) threshold document:
 - Level 1: Child's needs are being met. Universal support.
 - Level 2: Universal Plus. Additional professional support is needed to meet child's needs.
 - Level 3: Universal Partnership Plus. Targeted Early Help. Coordinated response needed to address multiple or complex problems.
 - Level 4: Specialist/Statutory intervention required. Children in acute need, likely to be experiencing, or at risk of experiencing significant harm.
- Staff are alert to indicators that a family may benefit from early help services and should discuss this with the designated safeguarding lead, also recording this

Seeking consent from parents/carers to share information before making a referral for early help (Tier 2/3*)

Parents/carers are made aware of Eton Pre-Schools Privacy Notice which explains the circumstances under which information about their child will be shared with other agencies. When a referral for early help is necessary, the designated safeguarding lead must always seek consent from the child's parents/carers to share information with the relevant agency.

- If consent is sought and withheld and there are concerns that a child may become at risk of significant harm without early intervention, there may be sufficient grounds to over-ride a parental decision to withhold consent.
- If a parent/carer withholds consent, this information is included on any referral that is made to the local authority. In these circumstances a parent should still be told that the referral is being made beforehand (unless to do so may place a child at risk of harm).

**Tier 2: Children with additional needs, who may be vulnerable and showing early signs of abuse and/or neglect; their needs are not clear, not known or not being met. Tier 3: Children with complex multiple needs, requiring specialist services in order to achieve or maintain a satisfactory level of health or development or to prevent significant impairment of their health and development and/or who are disabled.*

Informing parents/carers when making a child protection referral

In most circumstances consent will not be required to make a child protection referral, because even if consent is refused, there is still a professional duty to act upon concerns and make a referral. When a child protection referral has been made, the designated safeguarding lead contacts the parents/carers (only if agreed with social care) to inform them that a referral has been made, indicating the concerns that have been raised, unless social care advises that the parent/carer should not be contacted until such time as their investigation, or the police investigation, is concluded. Parents/carers are not informed prior to making a referral if:

- there is a possibility that a child may be put at risk of harm by discussion with a parent/carer, or if a serious offence may have been committed, as it is important that any potential police investigation is not jeopardised
- there are potential concerns about sexual abuse, fabricated illness, FGM or forced marriage
- contacting the parent/carer puts another person at risk; situations where one parent may be at risk of harm, e.g. abuse; situations where it has not been possible to contact parents/carers to seek their consent may cause delay to the referral being made

The designated safeguarding lead makes a professional judgment regarding whether consent (from a parent/carer) should be sought before making a child protection referral as described above. They record their decision about informing or not informing parents along with an explanation for this decision. Advice will be sought from the appropriate children's social work team if there is any doubt.

Referring

- The designated safeguarding lead or back-up follows the LSP procedures for making a referral.
- If the designated safeguarding lead or their back-up is not on site, the most senior member of staff present takes responsibility for making the referral to social care.
- If a child is believed to be in immediate danger, or an incident occurs at the end of the session and staff are concerned about the child going home that day, then the Police and/or social care are contacted immediately.
- Arrangements for cover (as above) when the designated safeguarding lead and back-up designated safeguarding lead are not on-site are agreed in advance by the setting manager and clearly communicated to all staff.

Further recording

- Information is recorded on the safeguarding form. Discussion with parents/carers and any further discussion with social care is recorded. If recording a conversation with parents/carers that is significant, regarding the incident or a related issue, parents/carers are asked to sign and date it a record of the conversation. It should be clearly recorded what action was taken, what the outcome was and any follow-up.

- If a referral was made, copies of all documents are kept and stored securely and confidentially (including copies) in the child's safeguarding file,
- Each member of staff/volunteer who has witnessed an incident or disclosure should also make a written statement.
- Follow up phone calls to or from social care are recorded in the child's file; with date, time, the name of the social care worker and what was said.
- Safeguarding records are kept up to date and made available for confidential access by the designated officer to allow continuity of support during closures or holiday periods.

Reporting a serious child protection incident using 06.1c Confidential safeguarding incident report form

- The DSL and Deputy DSL will discuss any referrals before they are made
- If necessary the Safeguarding lead for the trustees may be informed.

** Tier 3: Children with complex multiple needs, requiring specialist services in order to achieve or maintain a satisfactory level of health or development or to prevent significant impairment of their health and development and/or who are disabled.

Tier 4: Children in acute need, who are suffering or are likely to suffer significant harm.

Professional disagreement/escalation process

- If a member of staff disagrees with a decision made by the designated safeguarding lead not to make a referral to social care they must initially discuss and try to resolve, it with them.
- If the disagreement cannot be resolved with the designated safeguarding lead and the member of staff continues to feel a safeguarding referral is required, the member of staff is made aware of how to escalate this on their own
- If issues cannot be resolved the whistle-blowing policy should be used, as set out below.
- Supervision sessions are also used to discuss concerns, but this must not delay making safeguarding referrals.

Whistleblowing

Eton Pre-School will ensure that all staff are familiar with the whistleblowing procedure

The whistle blowing procedure must be followed in the first instance if:

- a criminal offence has been committed, is being committed or is likely to be committed
- a person has failed, is failing or is likely to fail to comply with any legal obligation to which he or she is subject. This includes non-compliance with policies and procedures, breaches of EYFS and/or registration requirements

- an injustice has occurred, is occurring or is likely to occur
- the health and safety of any individual has been, is being or is likely to be endangered
- the working environment has been, is being or is likely to be damaged
- that information tending to show any matter falling within any one of the preceding clauses has been, is being or is likely to be deliberately concealed

There are 3 stages to raising concerns as follows:

1. If staff wish to raise or discuss any issues which might fall into the above categories, they should normally raise this issue with their manager/designated safeguarding lead.
2. Staff who are unable to raise the issue with their manager/designated safeguarding lead should raise the issue with the deputy DSL
3. If staff are still concerned after the investigation, or the matter is so serious that they cannot discuss it with a line manager, they should raise the matter with the chair of trustees. After a concern has been raised, the manager/line manager will decide how to respond in a reasonable and appropriate manner. Normally this will involve making internal enquires first, but it may be necessary to carry out an investigation.

Whilst it is hoped that such disclosures will never be necessary, the setting management recognises that it may find itself in circumstances which are new to it. Each case will be treated on its own merits.

Managers' responsibilities

Managers/line managers notified of concerns under this policy are expected to:

- ensure that all staff and volunteers are familiar with the policy
- ensure that concerns raised are taken seriously;
- treat the matter in confidence, within the parameters of the case;
- where appropriate, investigate properly and make an objective assessment of the concern;
- keep the person raising the concern updated with progress, without breaching confidentiality;
- ensure that the action necessary to resolve a concern is taken;
- take appropriate steps to ensure that the employee's working environment and/or working relationship is/are not prejudiced by the fact of disclosure.

If an issue cannot be resolved and the member of staff believes a child remains at risk because the setting or the local authority have not responded appropriately, the NSPCC have introduced a whistle-blowing helpline 0800 028 0285 for professionals who believe that:

- their own or another employer will cover up the concern

- they will be treated unfairly by their own employer for complaining
- if they have already told their own employer and they have not responded

Eton Pre-School will ensure that all staff are aware of the NSPCC whistleblowing helpline

Female genital mutilation (FGM)

Staff should be alert to symptoms that would indicate that FGM has occurred, or may be about to occur, and take appropriate safeguarding action. Designated safeguarding leads should contact the police immediately as well as refer to children's services local authority social work if they believe that FGM may be about to occur.

It is illegal to undertake FGM or to assist anyone to enable them to practice FGM under the Female Genital Mutilation Act 2003, it is an offence for a UK national or permanent UK resident to perform FGM in the UK or overseas. The practice is medically unnecessary and poses serious health risks to girls. FGM is mostly carried out on girls between the ages of 0-15, statistics indicate that in half of countries who practise FGM girls were cut before the age of 5. LSP guidance must be followed in relation to FGM, and the designated person is informed regarding specific risks relating to the culture and ethnicity of children who may be attending their setting and shares this knowledge with staff.

Symptoms of FGM in very young girls may include difficulty walking, sitting or standing; painful urination and/or urinary tract infection; urinary retention; evidence of surgery; changes to nappy changing or toileting routines; injury to adjacent tissues; spends longer than normal in the bathroom or toilet; unusual and /or changed behaviour after an absence from the setting (including increased anxiety around parents adults or unwillingness to talk about home experiences or family holidays); are reluctant to allow child to undergo normal medical examinations; if an older sibling has undergone the procedure a younger sibling may be at risk; discussion about plans for an extended family holiday

Children and young people vulnerable to extremism or radicalisation

Eton Pre-School has a duty to identify and respond appropriately to concerns of any child or adult at risk of being drawn into terrorism. LSP's have procedures which cover how professionals should respond to concerns that children or young people may be at risk of being influenced by or being made vulnerable by the risks of extremism.

There are potential safeguarding implications for children and young people who have close or extended family or friendship networks linked to involvement in extremism or terrorism.

- The designated safeguarding lead at is required to familiarise themselves with LSP procedures, as well as online guidance including:
 - Channel Duty guidance: Protecting people vulnerable to being drawn into terrorism
www.gov.uk/government/publications/channel-and-prevent-multi-agency-panel-pmap-guidance

- Prevent Strategy (HMG 2011) www.gov.uk/government/publications/prevent-strategy-2011
- The prevent duty: for schools and childcare providers www.gov.uk/government/publications/protecting-children-from-radicalisation-the-prevent-duty
- The designated safeguarding lead should follow LSP guidance in relation to how to respond to concerns regarding extremism and ensure that staff know how to identify and raise any concerns in relation to this with them.
- The designated safeguarding lead must know how to refer concerns about risks of extremism/radicalisation to their LSP safeguarding team or the Channel panel, as appropriate.
- The designated safeguarding lead should also ensure that they and all other staff working with children and young people understand how to recognise that someone may be at risk of violent extremism.
- The designated safeguarding lead also ensures that all staff are aware of their responsibilities with regard to equality and inclusion and children's rights. The designated safeguarding lead should understand the perceived terrorism risks in relation to the area that they deliver services in.

Parental consent for radicalisation referrals

LSP procedures are followed in relation to whether parental consent is necessary prior to making a referral about a concern that a child or adult may be at risk of being drawn into terrorism. It is good practice to seek the consent of the person, or for very young children, the consent of their parent/carer prior to making a referral, but it is not a requirement to seek consent before referring a concern regarding possible involvement in extremism or terrorism if it may put a child at risk, or if an offence may have been or may be committed. Advice should be sought from line managers and local agencies responsible for safeguarding, as to whether consent should be sought on a case-by-case basis. The Designated safeguarding lead is mindful that discussion regarding potential referral due to concerns may be upsetting for the subject of the referral and their family. Initial advice regarding whether an incident meets a threshold for referral can be sought from the relevant local agency without specific details such as names of the family being given in certain circumstances.

Consent is required prior to any individual engaging with a Channel intervention. Consent is usually sought by Channel partners, but LSP procedures should be followed regarding this.

If there is a concern that a person is already involved in terrorist activity this must be reported to the Anti-Terrorist Hot Line 0800 789 321-Text/phone 0800 0324 539. Police can be contacted on 101.

Concerns about children affected by gang activity/serious youth violence

Educators at Eton Pre-school are aware that children can be put at risk by gang activity, both through participation in and as victims of gang violence. Whilst young children will be very unlikely to become involved in gang activity they may potentially be put at risk by the involvement of others in their household in gangs, such as an adult sibling or a parent/carer. The designated safeguarding lead is familiar with the

LSP guidance and procedures in relation to safeguarding children affected by gang activity and ensures this is followed where relevant.

Forced marriage/Honour based violence

Educators at Eton Pre-School are aware that forced marriage is a marriage in which one or both spouses do not consent to the marriage but are forced into it and will act accordingly as detailed below. Duress can include physical, psychological, financial, sexual and emotional pressure. In the cases of some vulnerable adults who lack the capacity to consent coercion is not required for a marriage to be forced. A forced marriage is distinct from an arranged marriage. An arranged marriage may have family involvement in arranging the marriages, but crucially the choice of whether to accept the arrangement remains with the prospective spouses.

Forced marriage became criminalised in 2014. There are also civil powers for example a Forced Marriage Protection Order to protect both children and adults at risk of forced marriage and offers protection for those who have already been forced into marriage.

Risks in relation to forced marriage are high and it is important that educators ensure that anyone at risk of forced marriage is not put in further danger.

If someone is believed to be at risk it is helpful to get as much practical information as possible, bearing in mind the need for absolute discretion, information that can be helpful will include things like, names, addresses, passport numbers, national insurance numbers, details of travel arrangements, dates and location of any proposed wedding, names and dates of birth of prospective spouses, details of where and with whom they may be staying etc. Forced marriage can be linked to honour-based violence, which includes assault, imprisonment and murder. Honour based violence can be used to punish an individual for undermining what the family or community believes to be the correct code of behaviour.

In an emergency police should be contacted on 999.

Forced Marriage Unit can be contacted either by professionals or by potential victims seeking advice in relation to their concerns. The contact details are below.

- Telephone: +44 (0) 20 7008 0151
- Email: fmufco.gov.uk
- Email for outreach work: fmufcooutreach.gov.uk

06 Safeguarding children, young people and vulnerable adults procedures

06.2 Concerns and allegations of serious harm or abuse against staff, volunteers or agency staff

Concerns may come from a parent/carer, child, colleague, or the public. Allegations or concerns must be referred to the designated safeguarding lead without delay - even if the person making the allegation later withdraws it.

What is a low-level concern?

The NSPCC defines a low-level concern as *'any concern that an adult has acted in a way that:*

- *is inconsistent with the staff code of conduct, including inappropriate conduct outside of work*
- *doesn't meet the threshold of harm or is not considered serious enough...to refer to the local authority.*

Low-level concerns are part of a spectrum of behaviour. This includes:

- *inadvertent or thoughtless behaviour*
- *behaviour that might be considered inappropriate depending on the circumstances.*
- *behaviour which is intended to enable abuse.*

Responding to low-level concerns

Any concerns about the conduct of staff, students or volunteers must be shared with the designated safeguarding lead and recorded. The designated safeguarding lead should be informed of all concerns, including those that may initially be considered 'low level' and make the final decision on how to respond.

Reporting concerns about the conduct of a colleague, student or volunteer contributes towards a safeguarding culture of openness and trust. It ensures that adults consistently model the setting's values and helps keep children safe. It protects adults from potential false allegations or misunderstandings.

If it is not clear that a concern meets the local authority threshold, the designated safeguarding lead should contact the LADO for clarification.

In most instances, low-level concerns about staff conduct can be addressed through supervision, training, or disciplinary processes where an internal investigation may take place.

Identifying concerns about serious harm, or abuse

An allegation against a member of staff, volunteer or agency staff constitutes serious harm or abuse if they:

- behaved in a way that has harmed, or may have harmed a child
- possibly committed a criminal offence against, or related to, a child
- behaved towards a child in a way that indicates they may pose a risk of harm to children

- behaved or may have behaved in a way that indicates they may not be suitable to work with children

Informing

- All staff report allegations to the designated safeguarding lead.
- The designated safeguarding should form a view about what immediate actions are taken to ensure the safety of the children and staff in the setting, and what is acceptable in terms of fact-finding.
- It is essential that no investigation occurs until and unless the LADO has expressly given consent for this to occur, however, the person responding to the allegation does need to understand what explicitly is being alleged.
- The designated safeguarding lead must take steps to ensure the immediate safety of children, parents, and staff on that day within the setting.
- The LADO is contacted as soon as possible and within one working day. If the LADO cannot be contacted the LADO team manager is contacted and/or advice sought from the MASH
- A child protection referral is made if required. The LADO, line managers and local safeguarding children's services can advise on whether a child protection referral is required.
- The designated safeguarding lead asks for clarification from the LADO on the following areas:
 - what actions the designated safeguarding lead must take next and when and how the parents/carers of the child are informed of the allegation
 - whether or not the LADO thinks a criminal offence may have occurred and whether the police should be informed and if so, who will inform them
 - whether the LADO is happy for the provider to pursue an internal investigation without input from the LADO, or how the LADO wants to proceed
 - whether the LADO thinks the person concerned should be suspended or put on non contact duties and whether they have any other suggestions about the actions the designated person has taken to ensure the safety of the children and staff attending the setting
- The designated safeguarding lead records details of discussions and liaison with the LADO including dates, type of contact, advice given, actions agreed and updates on the child's case file.
- Parents/carers are not normally informed until discussion with the LADO has taken place, however in some circumstances the designated safeguarding lead may need to advise parents/carers of an incident involving their child straight away, for example if the child has been injured and requires medical treatment.
- Staff do not investigate the matter unless the LADO has specifically advised them to investigate internally. Guidance should also be sought from the LADO regarding whether suspension should be considered. The person dealing with the allegation must take steps to ensure that the immediate safety

of children, parents/carers and staff is assured. It may be that in the short-term measures other than suspension, such as requiring a staff member to be office based for a day, or ensuring they do not work unsupervised, can be employed until contact is made with the LADO and advice given.

- The designated safeguarding lead ensures the incident is recorded and filed appropriately
- If after discussion with the designated safeguarding lead, the LADO decides that the allegation is not obviously false, and there is cause to suspect that the child/ren is suffering or likely to suffer significant harm, then the LADO will normally refer the allegation to children's social care.
- Notification to Ofsted is required for any allegations made against a member of staff, therefore the designated safeguarding lead will inform Ofsted as soon as possible, but no later than 14 days after the event has occurred. The designated safeguarding lead will liaise with the designated officer/line manager about notifying Ofsted.
- Ofsted must be updated of the actions taken by the setting, even if the LADO decides the allegation does not meet their threshold for investigation.
- Avenues such as performance management or coaching and supervision of staff will also be used instead of disciplinary procedures where these are appropriate and proportionate. If an allegation is ultimately upheld the LADO may also offer a view about what would be a proportionate response in relation to the accused person.
- The designated safeguarding lead must consider revising or writing a new risk assessment where appropriate, for example if the incident related to an instance where a member of staff has physically intervened to ensure a child's safety, or if an incident relates to a difficulty with the environment such as where parents/carers and staff are coming and going, and doors are left open.
- All allegations are investigated even if the person involved resigns or ceases to be a volunteer.

Allegations against agency staff

Any allegations against agency staff must be responded to as detailed in this procedure. In addition, the designated safeguarding lead must contact the agency following advice from the LADO

Allegations against the designated safeguarding lead.

- If a member of staff has concerns that the designated safeguarding lead has behaved in a way that indicates they are not suitable to work with children as listed above, this is reported to the deputy designated lead or the safeguarding trustee following the setting's whistleblowing process, who will investigate further.
- During the investigation, the designated deputy lead will take over the role of DSL until the investigation is complete.

Recording

- A record is made of an allegation/concern, along with supporting information and placed in a red safeguarding file in the child's file
- If the allegation refers to more than one child, this is recorded in each child's file
- If relevant, a child protection referral is made, with details held on the child's file.

Disclosure and Barring Service

- If a member of staff is dismissed because of a proven or strong likelihood of child abuse, inappropriate behaviour towards a child, or other behaviour that may indicate they are unsuitable to work with children such as drug or alcohol abuse, or other concerns raised during supervision when the staff suitability checks are done, a referral to the Disclosure and Barring Service is made.

Escalating and whistleblowing concerns

- If a member of staff believes at any time that children may be in danger due to the actions or otherwise of a member of staff or volunteer, they must discuss their concerns immediately with the designated safeguarding lead or deputy if not available
- If after discussions with the designated safeguarding lead, they still believe that appropriate action to protect children has not been taken they must speak to the LADO

06 Safeguarding children, young people and vulnerable adults procedures

06.3 Visitor or intruder on the premises

The safety and security of the premises at Eton Pre-School are maintained at all times and staff are vigilant in areas that pose a risk. Security is maintained to ensure that unauthorised visitors cannot gain access.

Visitors with legitimate business - generally a visitor will have made a prior appointment

- On arrival, visitors are asked to verify their identity and confirm why they are visiting.
- Staff will ask them to sign in and explain the procedures for the use of mobile phones and emergency evacuation.
- Visitors are never left alone with the children at any time.
- Visitors to the setting are monitored and asked to leave immediately should their behaviour give cause for concern.

Intruder

An intruder is an individual who has not followed visitor procedures and has no legitimate business to be in the setting; he or she may or may not be a hazard to the setting.

- An individual who appears to have no business at Eton Pre-School will be asked for their name and purpose for being there.
- The staff member identifies any risk posed by the intruder.
- The staff member ensures the individual follows the procedure for visitors.
- The setting manager is immediately informed of the incident and takes necessary action to safeguard children.
- If there are concerns for the safety of children, staff evacuate them to a safe place in the building and contact police. In some circumstance this could lead to 'lock-down' of the setting and will be managed by the responding emergency service.
- In the case of a serious breach where there was a perceived or actual threat to the safety of the children the manager/designated person records the incident and follows up with police/ofsted and trustees as appropriate The directors ensure a robust organisational response and ensure that learning is shared.

06 Safeguarding children, young people and vulnerable adults procedures

06.4 Uncollected child

If a child is not collected by closing time at the end of the session and there has been no contact from the parent/carer, or there are concerns about the child's welfare then this procedure is followed.

- The Manager on duty attempts to contact the parents/carers by phone.
- If the parents/carers cannot be contacted, the manager on duty uses the emergency contacts to inform a known carer of the situation and arrange collection of the child. All children should have at least 2 emergency contacts on their registration form.
- After one hour, the designated safeguarding lead contacts the local social care out-of-hours duty officer or the Police
- The designated safeguarding lead should arrange for the collection of the child by social care.
- Where appropriate the Manager should also notify police.

Members of staff **do not:**

- go off the premises to look for the parents/carers
- leave the premises to take the child home, or to another carer
- offer to take the child home with them to care for them in their own home until contact with the parent/carer is made
- a record of conversations with parents/carers should be made and recorded on the child's file with parents/carers being asked to sign and date the recording.
- This is logged on the child's personal file along with the actions taken. Including if there are safeguarding and welfare concerns about the child, or if Social Care have been involved due to the late collection.
- If there are recurring incidents of late collection, a meeting is arranged with the parents/carers to agree a plan to improve time-keeping and identify any further support that may be required.

06 Safeguarding children, young people and vulnerable adults' procedures

06.5 Missing child

In the building

- As soon as it is noticed that a child is missing, the member of staff informs the designated safeguarding lead who initiates a search within the setting.
- If the child is found on-site, the designated safeguarding lead checks on the welfare of the child and investigates the circumstances of the incident.
- If the child is not found on site, one member of staff searches the immediate vicinity, if there is no sign of the child, the police are called immediately. The parents/carers are then called and informed.
- If Manager informs the Directors

Off-site

- As soon as it is noticed that a child is missing, the senior staff present carries out a headcount.
- One member of staff searches the immediate vicinity.
- If the child is not found, the senior staff calls the police and then contacts Eton College security
- The designated safeguarding lead informs the parents/carers.
- Members of staff return the children to the setting as soon as possible if it is safe to do so. According to the advice of the police, one senior member of staff should remain at the site where the child went missing and wait for the police to arrive.

Recording and reporting

- A record is made by the manager and all staff involved
- Ofsted are informed as soon as possible (and at least within 14 days).
- The manager carries out a full investigation.
- The manager speaks to the parents/carers and explain the process of the investigation.
- Staff present during the incident writes a full report which is filed in the child's file. Staff do not discuss any missing child incident with the press.

06 Safeguarding children, young people and vulnerable adults procedures

06.6 Incapacitated parent/carer

Incapacitated refers to a condition which renders a parent/carer unable to take responsibility for their child; this could be at the time of collecting their child from the setting or on arrival. Concerns may include:

- appearing drunk
- appearing under the influence of drugs
- demonstrating angry and threatening behaviour to the child, members of staff or others
- appearing erratic or manic

Informing

- If a member of staff at Eton Pre-school is concerned that a parent/carer display any of the above characteristics, they inform the designated safeguarding lead as soon as possible.
- The designated safeguarding lead assesses the risk and decides if further intervention is required.
- If it is decided that no further action is required, a record of the incident is made on a Safeguarding incident reporting form.
- If intervention is required, the designated safeguarding lead speaks to the parent/carer in an appropriate, confidential manner.
- The designated safeguarding lead will, in agreement with the parent/carer, use emergency contacts listed for the child to ask an alternative adult to collect the child.
- The emergency contact is informed of the situation by the designated safeguarding lead and of the setting's requirement to inform social care of their contact details.
- The directors are informed of the situation as soon as possible and provide advice and assistance as appropriate.
- If there is no one suitable to collect the child social care are informed.
- If violence is threatened towards anybody, the police are called immediately.
- If the parent/carer takes the child while incapacitated the police are called immediately and a referral is made to social care.

Recording

- The designated safeguarding lead ensures all information is recorded appropriately
- Further updates/notes/conversations/ telephone calls are recorded.

06 Safeguarding children, young people and vulnerable adults' procedures

06.7 Death of a child on-site

Identifying

- If it is suspected that a child has died in Eton Pre-school, emergency resuscitation will be given to the child by a qualified First Aider until the ambulance arrives.
- Only a medical practitioner can confirm a child has died.

Informing

- The designated safeguarding lead ensures emergency services have been contacted, ambulance and police.
- The parents/carers are contacted and asked to come to the setting immediately, informing them that there has been an incident involving their child and that an ambulance has been called, asking them to come straight to the setting or hospital as appropriate.
- The directors are contacted and a Confidential safeguarding incident report form prepared by the designated safeguarding lead.
- A member of staff is delegated to phone all parents/carers to collect their children. The reason given must be agreed by the designated officer and the information given should be the same to each parent/carer.
- The decision on how long the setting will remain closed will be based on police advice.
- Ofsted are informed of the incident by the nominated person and a RIDDOR report is made.
- Staff will not discuss the death of a child with the press.

Responding

- The directors will decide how the death is investigated within the organisation after taking advice from relevant agencies.
- The directors will coordinate support for staff and children to ensure their mental health and well-being.

06 Safeguarding children, young people and vulnerable adults' procedures

06.8 Looked after children

Identification.

A 'Looked after Child' is a child in public care, who is placed with foster carers, in a residential home or with parents/carers or other relatives.

Services provided to Looked After Children

Two-year-olds

- Places will be offered to two-year-old children who are looked after; where the placement in the setting will normally last a minimum of three months.
- Where the child is already in attendance and has a secure attachment with an existing key person a continuation of the existing place will be offered.

Three- and four-year-olds

- Places will be offered for funded children who are looked after; where the placement in the setting will normally last a minimum of six weeks.
- If a child who attends a setting is taken into care and is cared for by a local carer the place will continue to be made available to the child.

Additional Support

- The designated safeguarding lead and key person at Eton Pre-School will liaise with agencies and professionals involved with the child, and their family, and ensure appropriate information is gained and shared.
- A meeting of professionals involved with the child is convened by the setting at the start of a placement. A Personal Education Plan (PEP) for children over 3 years old is put in place within 10 days of the child becoming looked after.
- Following this meeting, a Care plan for looked after children form is completed. The care plan is reviewed after two weeks, six weeks, three months, and thereafter at three to six monthly intervals.
- Eton Pre-School will have regular contact with the social worker and this will be maintained through planned meetings, which will include contribution to the PEP which is reviewed annually.

06 Safeguarding children, young people and vulnerable adults' procedures

06.9 E-safety (including all electronic devices with imaging and sharing capabilities)

Online Safety

It is important that children and young people attending Eton Pre-School receive consistent messages about the safe use of technology and can recognise and manage the risks posed in both the real and the virtual world.

Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks; the issues are:

Content – being exposed to illegal, inappropriate or harmful material

Contact – being subjected to harmful online interaction with other users

Conduct – personal online behaviour that increases the likelihood of, or causes, harm

I.C.T Equipment

- The manager at Eton Pre-School ensures that all computers have up-to-date virus protection installed.
- Tablets are on used by educators for the purposes of observation, assessment, and planning and to take photographs for individual children's learning journeys.
- Tablets remain on the premises and are always stored securely when not in use.
- Staff follow the additional guidance provided with the system

Internet access

- Children never have unsupervised access to the internet.
- The setting manager ensures that risk assessments in relation to e-safety are completed.
- Video sharing sites such as YouTube are not accessed due to the risk of inappropriate content.
- Children are taught the following stay safe principles in an age-appropriate way:
 - only go online with a grown up
 - be kind online **and** keep information about me safely
 - only press buttons on the internet to things I understand
 - tell a grown up if something makes me unhappy on the internet
- Staff support children's resilience in relation to issues they may face online, and address issues such as staying safe, appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age-appropriate ways.

- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at www.iwf.org.uk.

The setting manager ensures staff have access to age-appropriate resources to enable them to assist children to use the internet safely. Children At Eton Pre-School do not have a computer for their use and only ever access information on tablets when an adult is assisting them. After school club movies are all U rated

Personal mobile phones – staff and visitors (includes internet enabled devices)

- Personal mobile phones and internet enabled devices are not used by staff during working hours. This does not include breaks where personal mobiles may be used off the premises or in a safe place e.g., staff room. The setting manager completes a risk assessment for where they can be used safely.
- Personal mobile phones are switched off and stored in lockers.
- In an emergency, personal mobile phones may be used in the privacy of the staff room or left with a senior member of staff if awaiting a call.
- Staff ensure that contact details of the setting are known to family and people who may need to contact them in an emergency.
- Staff do not take their mobile phones on outings. However the manager may take a device for emergency purposes only .
- Members of staff do not use personal equipment to take photographs of children.
- Parents/carers and visitors do not use their mobile phones on the premises. There is an exception if a visitor's company/organisation operates a policy that requires contact with their office periodically throughout the day phones still should be stored away from any areas that children access and setting phone number given to visitors so that they are still contactable. Visitors are advised of a private space where they can use their mobile.

Cameras and videos

- Members of staff do not bring their own cameras or video recorders to the setting.
- Photographs/recordings of children are only taken for valid reasons, e.g. to record learning and development, or for displays, and are only taken on equipment belonging to the setting. Children are given the opportunity to consent to their photograph being taken, even if parent/carer permissions are in place.
- Camera and video use is monitored by the setting manager.
- Where parents/carers request permission to photograph or record their own children at special events, general permission is first gained from all parents/carers for their children to be included. Parents are told they do not have a right to photograph or upload photos of anyone else's children.
- Photographs/recordings of children are only made if relevant permissions are in place.

- If photographs are used for publicity, parental consent is gained and safeguarding risks minimised.

Cyber Bullying

If staff become aware that a child is the victim of cyber-bullying at home or elsewhere, they discuss this with the parents and refer them to help, such as: NSPCC Tel: 0808 800 5000 www.nspcc.org.uk or ChildLine Tel: 0800 1111 www.childline.org.uk

Use of social media

Eton Pre-School has a website and social media sites for the purpose of marketing and parental engagement. No images of children's faces are used and parental permission is given before images are used. This site is managed by the Manager . Devices are protected by passwords and anti virus software,

Staff are expected to:

- understand how to manage their security settings to ensure that their information is only available to people they choose to share information with
- ensure Eton Pre-School is not negatively affected by their actions and do not name the setting
- are aware that comments or photographs online may be accessible to anyone and should use their judgement before posting
- are aware that images, such as those on Snapchat may still be accessed by others and a permanent record of them made, for example, by taking a screen shot of the image with a mobile phone
- observe confidentiality and refrain from discussing any issues relating to work
- not share information they would not want children, parents or colleagues to view
- set privacy settings to personal social networking and restrict those who are able to access
- Refrain from allowing service users/children/parents as friends, as it is a breach of professional conduct
- report any concerns or breaches to the designated safeguarding lead in their setting

. There may be occasions when the educator and family are friendly prior to the child coming to the setting. In this case information is shared with the manager and an agreement in relation to boundaries are agreed

Use/distribution of inappropriate images

- Staff are aware that it is an offence to distribute indecent images and that it is an offence to groom children online. In the event of a concern that a colleague is behaving inappropriately, staff advise the designated safeguarding lead who follows procedure 06.2 Allegations against staff, volunteers or agency staff.

-

Use Of AI

AI may be used to create documents for the Pre-school. It will be used sparingly and will never mention the name of the pre-school or individuals names as we cannot protect these elements once on the web. Staff may use AI to produce items for the Pre-school or to assist with report writing but again no names must be mentioned. AI should be used sparingly as it has an environmental impact .

06 Safeguarding children, young people and vulnerable adults' procedures

6.10 Key person supervision

Staff taking on the role of key person must have supervision meetings in line with this procedure.

Structure

- Supervision meetings are held every 4-6 weeks for key persons. For part-time staff this may be less frequent but at least every 6-8 weeks.
- Key persons are supervised by the setting manager or deputy.
- Supervision meetings are held in a confidential space suitable for the task.

Content

The child focused element of supervision meetings must include discussion about:

- the development and well-being of the supervisee's key children and offer staff opportunity to raise concerns in relation to any child attending. *Safeguarding concerns must always be reported to the designated safeguarding lead immediately and not delayed until a scheduled supervision meeting*
- reflection on the journey a child is making and potential well-being or safeguarding concerns for the children they have key responsibility for
- promoting the interests of children.
- coaching to improve professional effectiveness based on a review of observed practice/teaching
- reviewing plans and agreements from previous supervisions including any identified learning needs for the member of staff
- During supervision staff can discuss any concerns they have about inappropriate behaviour displayed by colleagues but must never delay until a scheduled supervision to raise concerns.
- Staff are reminded of the need to disclose any convictions, cautions, court orders, reprimands and warnings which may affect their suitability to work with children that have occurred during their employment. New information is acted on immediately
- **Recording**
 - Key person supervision discussions are recorded and retained by the supervisor and a copy provided to the key person.
 - The key person and supervisor must sign and date the minutes of supervision within 4-6 weeks of it happening and disagreements over recorded content must be minuted.
 - Each member of staff has a supervision file that is always stored securely.

- Concerns raised during supervision about an individual child's welfare may result in safeguarding concerns not previously recognised as such, these are recorded and referred to the DSL
- Additional safeguarding or welfare decisions made in relation to a child during supervision are recorded on the individual case file.
- **Checking continuing suitability**
- Supervisors check with staff if there is any new information pertaining to their suitability to work with children. This only needs to be recorded on the supervision meeting record.
- Regarding the use of agency staff/support workers/self-employed persons there is an expectation that as part of the agreement with agencies they have sought information regarding their employee's suitability to work with children. Line managers must review this regularly.
- The position for students on placement is the same as that for agency staff

Exceptional Circumstances

Where exceptional circumstances prevent staff from conducting supervision as outlined in this procedure, the line manager is informed in writing, a copy placed on the supervision file and the appropriate actions agreed to ensure that the setting meets its obligations within the EYFS.

07 Record keeping policy

Alongside associated procedures, this policy was adopted by *Eton Pre-School* on 21/02/2026

Aim

We have record keeping systems in place for the safe and efficient management of the provision and to meet the needs of the children; that meet legal requirements for the storing and sharing of information within the framework of the GDPR and the Human Rights Act.

Objectives

- Children's records are kept in personal files, divided into appropriate sections, and stored separately from their developmental records which are usually kept on an electronic system (unless for SEND purposes)
- Children's personal files contain registration information and other information deemed as confidential
- Ethnicity data is only recorded where parents/carers have identified the ethnicity of their child themselves.
- Confidentiality is maintained by secure storage of files in a locked cabinet with access restricted to those who need to know.
- Staff know how and when to share information effectively if they believe a family may require a particular service to achieve positive outcomes
- Staff know how to share information if they believe a child is in need or at risk of suffering harm.
- Staff record when and to whom information has been shared, why information was shared and whether consent was given. Where consent has not been given and staff have taken the decision, in line with guidelines, to override the refusal for consent, the decision to do so is recorded.
- Guidance and training for staff specifically covers the sharing of information between professions, organisations, and agencies as well as within them,

The following information and documentation are also held:

- name, address and contact details of the provider and all staff employed on the premises
- name address and contact details of any other person who will regularly be in unsupervised contact with children
- a daily record of all children looked after on the premises, their hours of attendance and their named key person
- certificate of registration displayed and shown to parents on request
- records of risk assessments
- record of complaints

07 Record keeping procedures

07.1 Children's records and data protection

During an outbreak of serious illness of disease there may be the need to keep additional records as part of outbreak management. A record is kept of individual cases of children/families who are self-isolating due to symptoms as per usual record-keeping procedures. In all cases the principles of data protection are maintained at Eton Pre-School

Principles of data protection: lawful processing of data

Personal data shall be:

- a) *processed lawfully, fairly and in a transparent manner in relation to the data subject*
- b) *collected for specified, explicit and legitimate purposes and not further processed in a manner that is not compatible for these purposes*
- c) *adequate, relevant and necessary in relation to the purposes for which they are processed*
- d) *accurate, and where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purpose for which they are processed, are erased or rectified without delay*
- e) *kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed*
- f) *processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures (“integrity and confidentiality”)* Article 5 of the General Data Protection Regulations (2018)

Educators should process data, record and share information in line with the principles above.

General safeguarding recording principles

- It is vital that all relevant interactions linked to safeguarding children's and individual's welfare are accurately recorded.
- All recordings should be made as soon as possible after the event.
- Recording should be to a good standard and clear enough to enable someone other than the person who wrote it, to fully understand what is being described.
- Recording can potentially be viewed by a parent/carer, Ofsted inspector, childminder agency, by the successors of the educators who record, and may be used in a Family Court as relevant evidence to

Policies & Procedures template for the EYFS 2025/26 (Early Years Alliance 2025)

decide whether a child should remain with their biological parents or be removed to live somewhere else. Recording needs to be fair and accurate, non-judgemental in tone, descriptive, relevant, and should clearly show what action has been taken to safeguard a child and reflect decision-making relating to safeguarding.

- Recording should be complete, it should show what the outcome has been, what happened to referrals, why decisions were made to share or not share information, and it should contain summaries and minutes of relevant multi-agency meetings and multi-agency communication.
- If injuries or other safeguarding concerns are being described the description must be clear and accurate and should give specific details of the injury observed and where it is located.

The principles of GDPR and effective safeguarding recording practice are upheld

- Recording is factual and non-judgemental.
- The procedure for retaining and archiving personal data and the retention schedule and subsequent destruction of data is adhered to.
- Parents/carers and children where appropriate are made aware of what will be recorded and in what circumstances information is shared, prior to their child starting at the setting. Parents/carers are issued with a Privacy notice and should give signed, informed consent to recording and information sharing prior to their child attending the setting. If a parent/carer would not expect their information to be shared in any given situation, normally, they should be asked for consent prior to sharing.
- There are circumstances where information is shared without consent to safeguard children. These are detailed below, but in summary, information can be shared without consent if an educator is unable to gain consent, cannot be expected to gain consent, or gaining consent places a child at risk.
- Records can be accessed by, and information may be shared with local authority professionals. If there are significant safeguarding or welfare concerns, information may also be shared with a family proceedings Court or the police. Educators are aware of information sharing processes and all families should give informed consent to the way the setting will use, store, and share information.
- Recording should be completed as soon as possible and within 5 working days as a maximum for safeguarding recording timescales.
- If a child attends more than one setting, a two-way flow of information is established between the parents/carers, and other providers. Where appropriate, comments from others (as above) are incorporated into the child's records.

Children's personal files

- For paper records, appropriate files should be used. Children's personal files are kept in a filing cabinet, which is always locked when not in use.

- Correspondence in relation to a child is read, any actions noted, and filed immediately either electronically or on paper
- Access to children's personal files is restricted to those authorised to see them and make entries in them,
- Children's files may be handed to Ofsted as part of an inspection or investigation; they may also be handed to local authority staff conducting a S11 audit if authorisation is seen.

07 Record keeping procedures

07.2 Confidentiality, recording and sharing information

Most things that happen between the family, the child and the setting are confidential to Eton Pre-school. In certain circumstances information is shared, for example, a child protection concern will be shared with other professionals including social care or the police, and settings will give information to children's social workers who undertake S17 or S47 investigations. Normally parents/carers should give informed consent before information is shared, but in some instances, such as if this may place a child at risk, or a serious offence may have been committed, parental consent should not be sought before information is shared. Local Safeguarding Partnership (LSP) procedures should be followed when making referrals, and advice sought if there is a lack of clarity about whether parental consent is needed before making a referral due to safeguarding concerns.

- Staff discuss children's general progress and well-being together in meetings,
- Members of staff do not discuss children with other parents/carers or anyone else outside of the organisation, unless in a formal and lawful way.
- Discussions with other professionals should take place within a professional framework, not on an informal basis. Staff should expect that information shared with other professionals will be shared in some form with parent/carers and other professionals, unless there is a formalised agreement to the contrary, i.e. if a referral is made to children's social care, the identity of the referring agency and some of the details of the referral is likely to be shared with the parent/carer by children's social care.
- It is important that members of staff explain to parents that sometimes it is necessary to write things down in their child's file and explain the reasons why.
- When recording general information, staff should ensure that records are dated correctly, and the time is included where necessary and signed.
- Welfare/child protection concerns are recorded Information is clear and unambiguous (fact, not opinion), although it may include the educator's thoughts on the impact on the child and the words of the child
- Records are non-judgemental and do not reflect any biased or discriminatory attitude.
- Not everything needs to be recorded, but significant events, discussions and telephone conversations must be recorded at the time that they take place.

- Recording should be proportionate and necessary.
- When deciding what is relevant, the things that cause concern are recorded as well as action taken to deal with the concern. The appropriate recording format is filed within the child's file.
- Information shared with other agencies is done in line with these procedures.
- Where a decision is made to share information (or not), reasons are recorded.
- Staff may use a computer to type reports, or letters. Where this is the case, the typed document is deleted from the computer and only the hard copy is kept Unless this is held on the administrators work laptop.
- The setting is registered with the Information Commissioner's Office (ICO). Staff are expected to follow guidelines issued by the ICO,
- Additional guidance in relation to information sharing about adults is given by the Social Care Institute for Excellence
- Staff should follow guidance produced by the DFE and GOV.uk
- **Confidentiality definition**
- Personal information of a private or sensitive nature, which is not already lawfully in the public domain or readily available from another public source, and has been shared in a relationship, where the person giving the information could reasonably expect it would not be shared with others.
- Staff can be said to have a 'confidential relationship' with families. Some families share information about themselves readily; members of staff need to check whether parents/carers regard this information as confidential or not.
- Parents/carers sometimes share information about themselves with other parents/carers as well as staff; the setting cannot be held responsible if information is shared beyond those parents/carers whom the person has confided in.
- Information shared between parents/carers in a group is usually bound by a shared agreement that the information is confidential and not discussed outside. The setting manager is not responsible should that confidentiality be breached by participants.
- Where third parties share information about an individual; staff need to check if it is confidential, both in terms of the party sharing the information and of the person whom the information concerns.
- Information shared is confidential to the setting.

- Educators ensure that parents/carers understand that information given confidentially will be shared appropriately within the setting (for instance with a designated person, during supervision) and should not agree to withhold information from the designated person or their line manager.

Breach of confidentiality

- A breach of confidentiality occurs when confidential information is not authorised by the person who provided it, or to whom it relates, without lawful reason to share.
- The impact is that it may put the person in danger, cause embarrassment or pain.
- It is not a breach of confidentiality if information was provided on the basis that it would be shared with relevant people or organisations with lawful reason, such as to safeguard an individual at risk or in the public interest, or where there was consent to the sharing.
- Procedure 07.1 Children's records and data protection must be followed.

Exception

- GDPR enables information to be shared lawfully within a legal framework. The Data Protection Act 2018 balances the right of the person about whom the data is stored with the possible need to share information about them.
- The Data Protection Act 2018 contains "safeguarding of children and individuals at risk" as a processing condition enabling "special category personal data" to be processed and to be shared. This allows educators to share without consent if it is not possible to gain consent, if consent cannot reasonably be gained, or if gaining consent would place a child at risk.
- Confidential information may be shared without authorisation - either from the person who provided it or to whom it relates, if it is in the public interest and it is not possible or reasonable to gain consent or if gaining consent would place a child or other person at risk. The Data Protection Act 2018 enables data to be shared to safeguard children and individuals at risk. Information may be shared to prevent a crime from being committed or to prevent harm to a child, Information can be shared without consent in the public interest if it is necessary to protect someone from harm, prevent or detect a crime, apprehend an offender, comply with a Court order or other legal obligation or in certain other circumstances where there is sufficient public interest.
- Sharing confidential information without consent is done only in circumstances where consideration is given to balancing the needs of the individual with the need to share information about them.
- When deciding if public interest should override a duty of confidence, consider the following:
 - is the intended disclosure appropriate to the relevant aim?

- what is the vulnerability of those at risk?
- is there another equally effective means of achieving the same aim?
- is sharing necessary to prevent/detect crime and uphold the rights and freedoms of others?
- is the disclosure necessary to protect other vulnerable people?

The decision to share information should not be made as an individual, but with the backing of the designated person who can provide support, and sometimes ensure protection, through appropriate structures and procedures.

Obtaining consent

Consent to share information is not always needed. However, it remains best practice to engage with people to try to get their agreement to share where it is appropriate and safe to do so.

Using consent as the lawful basis to store information is only valid if the person is fully informed and competent to give consent and they have given consent of their own free will, and without coercion from others, Individuals have the right to withdraw consent at any time.

You should not seek consent to disclose personal information in circumstances where:

- someone has been hurt and information needs to be shared quickly to help them
- obtaining consent would put someone at risk of increased harm
- obtaining consent would prejudice a criminal investigation or prevent a person being questioned or caught for a crime they may have committed
- the information must be disclosed regardless of whether consent is given, for example if a Court order or other legal obligation requires disclosure

NB. The serious crimes indicated are those that may harm a child or adult; reporting confidential information about crimes such as theft or benefit fraud are not in this remit.

- Settings are not obliged to report suspected benefit fraud or tax evasion committed by clients, however, they are obliged to tell the truth if asked by an investigator.
- Parents/carers who confide that they are working while claiming should be informed of this and should be encouraged to check their entitlements to benefits, as they it may be beneficial to them to declare earnings and not put themselves at risk of prosecution.

Consent

- Parents/carers share information about themselves and their families. They have a right to know that any information they share will be regarded as confidential. They should also be informed about the circumstances, and reasons for the setting being under obligation to share information.
- Parents/carers are advised that their informed consent will be sought in most cases, as well as the circumstances when consent may not be sought, or their refusal to give consent overridden.
- Where there are concerns about whether to gain parental consent before sharing information, for example when making a Channel or Prevent referral the setting manager must inform their line manager for clarification before speaking to parents/carers.
- Consent must be informed - that is the person giving consent needs to understand why information will be shared, what will be shared, who will see information, the purpose of sharing it and the implications for them of sharing that information.

Separated parents/carers

- Consent to share need only be sought from one parent/carer. Where parents/carers are separated, this would normally be the parent/carer with whom the child resides.
- Where there is a dispute, this needs to be considered carefully.
- Where the child is looked after, the local authority, as 'corporate parent' may also need to be consulted before information is shared.

Age for giving consent

- A child may have the capacity to understand why information is being shared and the implications. For most children under the age of eight years in a nursery or out of school childcare context, consent to share is sought from the parent/carer, or from a person who has parental responsibility.
- Young persons (16-19 years) are capable of informed consent. Some children from age 13 onwards may have capacity to consent in some situations. Where they are deemed not to have capacity, then someone with parental responsibility must consent. If the child is capable and gives consent, this may override the parent's/carer's wish not to give consent.
- Adults at risk due to safeguarding concerns must be deemed capable of giving or withholding consent to share information about them. In this case 'mental capacity' is defined in terms of the Mental Capacity Act 2005 Code of Practice (Office of the Public Guardian 2007). It is rare that this will apply in the context of the setting.

Ways in which consent to share information can occur

- Policies and procedures set out the responsibility of the setting regarding gaining consent to share information, and when it may not be sought or overridden.
- Information in leaflets to parents/carers, or other leaflets about the provision, including privacy notices.
- Consent forms signed at registration (for example to apply sun cream).
- Notes on confidentiality included on every form the parent/carer signs.
- Parent/carer signatures on forms giving consent to share information about additional needs, or to pass on child development summaries to the next provider/school.

07 Record keeping procedures

07.3 Client access to records

Under the General Data Protection Regulations there are additional rights granted to data subjects which must be protected by Eton Pre-School

The parent/carer is the 'subject' of the file in the case where a child is too young to give 'informed consent' and has a right to see information that the setting has compiled on them.

- If a parent/carer wishes to see the file, a written request is made, which the setting acknowledges in writing, informing the parent/carer that an arrangement will be made for him/her to see the file contents, subject to third party consent.
- Information must be provided within 30 days of receipt of request. If the request for information is not clear, the manager must receive legal guidance, for instance, from Law-Call for members of the Alliance. In some instances, it may be necessary to allow extra time in excess to the 30 days to respond to the request. An explanation must be given to the parent/carer where this is the case. The maximum extension time is 2 months.
- A fee may be charged to the parent/carer for additional requests for the same material, or any requests that will incur excessive administration costs.
- The setting manager informs their line manager and legal advice is sought.
- The setting manager goes through the file and ensures all documents are filed correctly, entries are in date order and that there are no missing pages. They note any information, entry or correspondence or other document which mentions a third party. The setting manager should always ensure that recording is of good quality, accurate, fair, balanced and proportionate and should have quality assurance processes in place to ensure that files are checked for quality regularly and that any issues are addressed promptly.
- Each of those individuals are written to explaining that the subject of the file has requested sight of the file which contains a reference to them, stating what this is.
- They are asked to reply in writing to the setting manager giving or refusing consent for disclosure of that material.
- Copies of these letters and their replies are kept on the child's file.
- Agencies will normally refuse consent to share information, and the parent should be redirected to those agencies for a request to see their file held by that agency.

- Entries where you have contacted another agency may remain, for example, a request for permission from social care to leave in an entry where the parent was already party to that information.
- Each family member and/or carer noted on the file is a third party, so where there are separate entries pertaining to each parent/carers, stepparent, grandparent etc, each of those must be written to regarding third party consent.
- Members of staff should also be written to, but the setting reserves the right under the legislation to override a refusal for consent or just delete the name and not the information.
 - If the member of staff has provided information that could be considered 'sensitive,' and the staff member may be in danger if that information is disclosed, then the refusal may be granted.
 - If that information is the basis of a police investigation, then refusal should also be granted.
 - If the information is not sensitive, then it is not in the setting's interest to withhold that information from a parent. It is a requirement of the job that if a member of staff has a concern about a child and this is recorded; the parents/carers are told this at the start and in most cases, concerns that have been recorded will have been discussed already, so there should be no surprises.
 - The member of staff's name can be removed from an entry, but the parent/carers may recognise the writing or otherwise identify who had provided that information. In the interest of openness and transparency, the setting manager may consider overriding the refusal for consent.
 - In each case this should be discussed with members of staff and decisions recorded.
- When the consent/refusals have been received, the setting manager takes a photocopy of the whole file. On the copy file the document not to be disclosed is removed (e.g. a case conference report) or notes pertaining to that individual in the contact pages blanked out using a thick marker pen.
- The copy file is then checked, and legal advisors verify that the file has been prepared appropriately, for instance, in certain circumstances redaction may be appropriate, for instance if a child may be damaged by their data being seen by their parent/carers, e.g. if they have disclosed abuse. This must be clarified with the legal adviser.
- The 'cleaned' copy is then photocopied again and collated for the parent to see.
- The setting manager informs the parent/carers that the file is now ready and invites him/her to make an appointment to view it.
- The setting manager and their line manager/trustee/committee member etc... meet with the parent/carers to go through the file, explaining the process as well as what the content records about the child and the work

that has been done. Only the persons with parental responsibility can attend that meeting, or the parent's/carer's legal representative or interpreter.

- The parent/carer may take a copy of the prepared file, but it is never handed over without discussion.
- It is an offence to remove material that is controversial or to rewrite records to make them more acceptable. If recording procedures and guidelines have been followed, the material should reflect an accurate and non-judgemental account of the work done with the family.
- If a parent/carer feels aggrieved about any entry in the file, or the resulting outcome, then the parent/carer should be referred to section 10.2 Complaints procedure for parents/carers and service users.
- The law requires that information held must be accurate, and if a parent/carer says the information held is inaccurate then the parent/carer has a right to request it to be changed. However, this only pertains to factual inaccuracies. Where the disputed entry is a matter of opinion, professional judgement, or represents a different view of the matter than that held by the parent/carer, the setting retains the right not to change the entry but can record the parent's/carer's view. In most cases, a parent/carer would have had the opportunity at the time to state their side of the matter, and this should have been recorded there and then.
- If there are any controversial aspects of the content of a client's file, legal advice must be sought. This might be where there is a court case between parents or where social care or the police may be considering legal action, or where a case has already completed, and an appeal process is underway.
- A setting should never 'under-record' for fear of the parent/carer seeing, nor should they make 'personal notes' elsewhere.

07 Record keeping procedures

07.4 Transfer of records

Records about a child's development and learning in the EYFS are made by the staff and management at Eton Pre-School to enable smooth transitions, appropriate information is shared with the receiving setting or school at transfer. Confidential records are passed on securely where there have been concerns, as appropriate.

Transfer of development records for a child moving to another early years setting or school

- It is the setting manager's responsibility to ensure that records are transferred and closed in accordance with the archiving procedures, set out below.
- If the Local Safeguarding Partnership (LSP) retention requirements are different to the setting, the designated safeguarding lead will seek legal advice if necessary.

Development and learning records

We will electronically transfer the child's learning journal to the ongoing school once we have parental permission to do so. Safeguarding information will be transferred in person to the DSL and signed for by them,

- The record also refers to any special needs or disability and whether early help referrals, or child in need (CIN) referrals or child protection (CP) referrals, were raised in respect of special educational needs or disability, whether there is an Action Plan (or other relevant plan, such as CIN or CP, or early help) and gives the name of the lead professional.
- The record contains reports produced by the setting and signed for by the parent
- The document may be accompanied by other evidence such as photos or drawings that the child has made.
- Every attempt will be made to transfer this information to the ongoing school but we cannot be held liable for them not collecting this evidence or keeping it on file.

Transfer of confidential safeguarding and child protection information

- The receiving school/setting will need a record of child protection concerns raised in the setting and what was done about them. The responsibility for transfer of records lies with the originating setting, not on the receiving setting/school to make contact and request them.
- To safeguard children effectively, the receiving setting must be made aware of any current child protection concerns, preferably by telephone, prior to the transfer of written records.

- Parents/carers should be reminded that sensitive information about their child is passed onto receiving settings where there have been safeguarding concerns and should be asked to agree to this prior to the information being shared. Settings are obliged to share data linked to “child abuse” which is defined as physical injury (non-accidental) physical and emotional neglect, ill treatment and abuse.
- Parents/carers should be asked to agree to this, however, where safeguarding concerns have reached the level of a referral being made to local children’s social work services (either due to concerns that a child may be at risk of significant harm or that a child may be in need under Section 17 of the Children Act,) if consent is withheld the information will most likely need to be shared anyway. It is important that any decisions made to share or not share with or without consent are fully recorded.
- For any safeguarding or welfare concerns that resulted in an early help referral being made, and if consent to share is withheld, legal advice is sought prior to sharing.
- If the level of a safeguarding concern has not been such that a referral was made for early help, or to children’s social work services or police, the likelihood is that any concerns were at a very low level and if they did not meet the threshold for early help, they are unlikely to need to be shared as child abuse data with a receiving setting, however, the designated safeguarding lead should make decisions on a case by case basis, seeking legal advice if necessary.
- The designated safeguarding lead person should check the quality of information to be transferred prior to transfer, ensuring that any information to be shared is accurate, relevant, balanced and proportionate. Parents/carers can request that any factual inaccuracies are amended prior to transfer.
- If a parent/carer wants to see the exact content of the safeguarding information to be transferred, they should go through the subject access request process. It is important that a child or other person is not put at risk through information being shared.
- If no referrals have been made for early help or to children’s social work services and police, there should not normally be any significant information which is unknown to a parent/carer being shared with the receiving school or setting.
- If a parent/carer has objections or reservations about safeguarding information being transferred to the new setting, or if it is unclear what information should be included, the designated person will seek legal advice.
- If LSP requirements are different to the setting’s this must be explained to the parent/carer, and a record of the discussion should be signed by parents/carers to indicate that they understand how the information will be shared, in what circumstances, and who by.
- Prior to sharing the information with the receiving setting, the designated safeguarding lead should check LSP retention procedures and if it becomes apparent that the LSP procedures are materially different to

setting's procedures this is brought to the attention of the designated safeguarding lead's line manager, who will agree how to proceed.

- If a child protection plan or child in need plan is in place 06.1a Child welfare and protection summary is also photocopied and a copy is given to the receiving setting or school, along with the date of the last professional meeting or case conference.
- If a S47 investigation has been undertaken by the local authority a copy of the child welfare and protection concern summary form is given to the receiving setting/school.
- If the setting has a copy of a current plan in place due to early help services being accessed, a copy of this should be given to the receiving setting, with parental consent.
- Where there has been a S47 investigation regarding a child protection concern, the name and contact details of the child's social worker will be passed on to the receiving setting/school, regardless of the outcome of the investigation.
- Where a child has been previously or is currently subject to a child protection plan, or a child in need plan, the name and contact details of the child's social worker will be passed onto the receiving setting/school, along with the dates that the relevant plan was in place for.
- This information is posted (by 'signed for' delivery) or taken to the school/setting, addressed to the setting's or school's designated person for child protection and marked confidential.
- Copies of the last relevant initial child protection conference/review, as well as the last core group or child in need minutes can be given to the setting/school.
- The setting manager must review and update 06.1a Child welfare and protection summary, checking for accuracy, proportionality, and relevance, before this is copied and sent to the setting/school.
- The setting manager ensures the remaining file is archived in line with the procedures set out below.

The setting keeps a copy of any safeguarding records in line with required retention periods.

Archiving children's files

- Health and safety records and some accident records pertaining to a child are stored in line with required retention periods.
- Children's records are kept in safe storage until the retention period is complete and then are destroyed securely.

08 Staff, assistants, volunteers and students' policy

Alongside associated procedures in 08.1-08.4 Staff, volunteers and students, this policy was adopted by *Eton Pre-School* on 22/02/2026

Aim

Staff at Eton Pre-School are deployed to meet the care and learning needs of children and ensure their safety and well-being. There are effective systems in place to ensure that adults looking after children are suitable to do so.

Objectives

- Recruitment checks meet the requirements of the EYFS as stipulated in procedure 8.1
- All staff and volunteers who work more than occasionally with the children have enhanced DBS disclosure checks. All staff and volunteers working with children have appropriate training, skills, and knowledge.
- All staff, students and volunteers are deployed in accordance with the procedures.
- There is a complaints procedure and staff, and volunteers know how to complain and who they complain to.
- There is a whistleblowing procedure for all staff, students and volunteers to raise any concerns they may have.
- Ofsted are notified of changes to the setting's name or address.
- Parents/carers are involved with their children's learning and their views are considered.

08 Staff, volunteers, assistants and students' policy

8.1 Recruitment Checks

Obtaining references

As part of our commitment to safer recruitment **Eton PreSchool** will always obtain references from applicants for roles in our setting. Robust recruitment checks are essential to ensuring that unsuitable persons cannot have contact with children through employment with us.

Obtaining references is an essential element of our recruitment process. We will always obtain a reference prior to employment commencing in line with the requirements of the EYFS as follows:

- Our application process requires candidates, to supply us with the contact details of a suitable referee from:
 - Their current employer, training provider or early years education and care setting
 - A senior person within the organisation who is authorised to provide a reference.
- If the applicant is not currently employed, or is not currently working with children we will:
 - Obtain verification of the applicants most recent relevant employment if they are not currently employed
 - Obtain a reference from the applicants most recent relevant employer from the last time they worked with children
- If the applicant has never worked with children we will obtain a reference from their current employer, training provider or education setting.
- We do not accept references from the following
 - Family members
 - A generic reference i.e. 'to whom it may concern'.

Once a reference is received

- A reference received electronically will be checked to ensure that it originates from a legitimate source.
- We will compare the information on the original application form against relevant information given in the reference, for example, checking that dates align, and roles and responsibilities listed are consistent. Where this is not the case, we will take up any discrepancies with the applicant.
- If information is incomplete or we feel it is insufficient for us to make an informed decision about the applicant's suitability, we will contact the referee for clarification.
- Before an offer of employment is made, we will ensure any concerns are resolved satisfactorily.
- In line with best practice, we will seek to gain explanations for any gaps in employment.

08 Staff, volunteers and students procedures

08.2 Staff deployment

Members of staff, including assistants, bank staff and students (where eligible to be counted in ratios) are deployed to meet the care and learning needs of children and to always ensure their safety and well-being.

- Two members of staff are on the premises before children are admitted in the morning and the end of the day; one of which should be the manager or deputy.
- Only those staff aged 17 or over are included in ratios. Staff working as apprentices (aged 16 or over) may be included in the ratios if the setting manager is satisfied that they are competent and responsible. Except in the cases of apprentices, only those aged 17 and over may be included in the ratios and only if the setting manager is satisfied, they are suitable, (staff under 17 should be supervised at all times).
- At least one Paediatric First Aider must always be on site when children are present, and at least one Paediatric First Aider must be present and **within sight and sound** of children at mealtimes. The setting manager deploys staff to give adequate supervision of indoor and outdoor areas, ensuring that children are always within sight or hearing of staff. Whilst eating, children must be within sight and hearing of a member of staff and **where possible the staff member will be sitting facing children when eating**.
- All staff are deployed according to the needs of the setting and the children attending.
- In open plan provision, staff are positioned in areas of the room and outdoors to supervise children and to support their learning.
- Staff are responsible for ensuring that equipment in their area is used appropriately and that the area is tidy at the end of the session.
- Staff inform colleagues if they must leave the room for any reason.
- There are two members of staff outside in the garden if at all possible. Where this is not possible staff will have use of walkie talkies to ensure safety
- The setting manager may direct other members of staff to join those outside, if the numbers of children warrant additional staff.
- Staff always focus their attention on the children whilst having a wider awareness of what is happening around them.
- Staff allow time for colleagues to engage in 'sustained shared interaction' with children and do not interrupt activities led by colleagues.
-

Staff children

- Where members of staff have their own children with them at the setting, the age of the child must fall within the stipulated ages of the setting's Ofsted registration.
- Where members of staff are likely to be working directly with their own children, this is subject to discussion before commencement with the setting manager.
- Where it is agreed that a member of staff's child attends the setting, it is subject to the following:
 - the child is treated by the parent and all staff as any other child would be
 - the child will not be in the parent/carers key group of children
 - the key person and parent will work towards helping the child to make a comfortable separation from the parent to allow the parent to fully undertake their role as a staff member of the setting
 - the key person will take responsibility for the child's needs throughout the day, unless the child is sick or severely distressed
 - time and space are made for the parent to breastfeed during the day, if that is their chosen method of feeding
 - the situation is reviewed as required, to ensure that the needs of the child are being met, and that the parent/carer can fulfil their role as a member of staff

If it is the setting manager's child, then their line manager ensures the criteria above is met

08 Staff, volunteers and students procedures

08.3 Deployment of volunteers and parent/Carer helpers

Volunteers and parent/carer helpers are always under the supervision of a permanent member of staff. They are not included in staff ratios, or as the two members of staff needed on the premises before children are admitted in the morning or at the end of the day. *(This can be removed for sessional settings, who operate with 2 or 3 members of staff where the volunteer helper enables the session to run, while the play leader in charge finds cover staff.)*

- The setting manager ensures that volunteers and parent/carer helpers are deployed to assist permanent staff.
- Volunteers and parent helpers assist staff in ensuring that the equipment in their designated area is used appropriately and that it is left tidy at the end of the session.
- Volunteers and parent/carer helpers give additional support for busy areas or to track or observe children.
- Volunteers and parent/carer helpers inform colleagues where they are going if they leave the room at any time.
- Volunteers and parent/carer helpers do not have unsupervised access to children; they do not take them into a separate room for an activity or toileting and do not take them off premises.
- Volunteers and parent/carer helpers are deployed in addition to members of staff in the garden/outdoor area when in use.
- The setting manager can direct volunteers and parent/carer helpers to join those outside if the numbers of children warrant additional numbers of staff available.
- Volunteers and parent/carer helpers always focus their attention to children.
- Volunteers and parent/carer helpers allow time for colleagues to engage in 'sustained shared interaction' with children and do not interrupt activities led by colleagues.

08 Staff, volunteers and students' procedures

08.4 Student placement

Qualifications and training make an important contribution to the quality of care and education at Eton Pre-School. As part of our commitment, we may offer placements to students undertaking relevant qualifications/training. We aim to provide students experiences that will contribute to the successful completion of their studies and provide examples of quality practice in early years care and education.

- The setting manager ensures that students meet the 'suitable person' requirements.
- The setting manager discusses the aim of the placement with the student's tutor prior to the placement commencing. The expectations of both parties are agreed at this point.
- The good character of students under 17 years old is vouched for by the establishment that places them, the setting manager must be satisfied that all relevant checks have been made.
- Students do not have unsupervised access to children.
- Suitable students on long term placements and volunteers (aged 17 or over) and staff working as apprentices in early education (aged 16 or over) may be included in the ratios at the level below their level of study, if the provider is satisfied that they are competent and responsible and if they hold a valid and current PFA qualification.
- Public liability and employer's liability insurance is in place that covers students and voluntary helpers.
- Students are aware of confidentiality.
- Student induction includes how the setting and sessions are managed, and policies and procedures, in particular safeguarding, confidentiality and health and safety.
- Appropriate members of staff co-operate with students' tutors to assist them in fulfilling the requirements of their course of study.
- The setting communicates a positive message to students about the value of qualifications and training.
- The needs of the children and their families remain paramount at all times and students are only admitted in numbers that do not hinder the work of the setting.

Eton College pupils may be able to attend the setting for work experience. These are short term places and the boys are supervised fully at all times. They are given an induction and are under 17 so do not require a DBS check, They are vouched for by their Teacher in charge and we have their contact number should we require it. Only good quality candidates will be allowed to work with us and any problems will be referred back to their Master asap

09 Early years practice policy

Alongside associated procedures in 09.1-09.15 Early years practice, this policy was adopted by *Eton Pre-School* on 20/02/2026

Aim

Children are safe, happy, and eager to participate and to learn.

Objectives

- Young children need to form a secure attachment to their key person when they join the setting to feel safe, happy and eager to participate and learn. It is their *entitlement* to be settled comfortably into a new environment.
- The needs of part-time children are considered.
- There is a procedure for when children do not settle and for prolonged absences.
- Introductions and induction of the parent/carer is carried out before children start.
- We actively promote British values, inclusion, equality of opportunity and the valuing of diversity.
 1. We operate a positive behaviour management approach. Behaviour management procedures cover how staff should respond to all aspects of behaviour, including children who exhibit challenging behaviour towards other children. Learning is a lifelong process, which enables children and adults to contribute to and shape their world.
 2. We want the curriculum we provide to help children to learn to:
 - be confident and independent
 - be aware of and responsive to their feelings
 - make caring and thoughtful relationships with other people
 - become increasingly excited by, interested in, and knowledgeable and questioning about the world around them.
 3. We provide a wide range of interesting child-chosen and adult-initiated activities which:
 - give children opportunities to use all their senses
 - help children of different ages and stages to play together
 - help children be the directors of their own learning
 - help children develop an inquiring and questioning attitude to the world around them

Older Children (2-5 years)

- To feel securely settled and ready to learn, children from two to five years need to form attachments with adults who care for them, primarily to a key person, but with other adults and children too. In this way children feel part of a community of learners; they can contribute to that community and receive from it. The three-stage model referred to in procedure 9.4 is applicable, but with some differences in the procedures for children moving up into the next group and for older children.

Waiting list and admissions

Our provision is accessible to children and families from all sections of the local and wider community. We aim to ensure that all sections of the community receive accessible information and that our admissions procedures are fair, clear, and open to all parents who apply for places. The availability of a place at the setting considers staff/child ratios, the age of the child and registration requirements.

- We operate in an inclusive manner which enables all children and families to access our services.
- We also have regard for the needs of parents/carers who are:
 - looking to take up work, remain in work or extend their hours of work
 - looking to commence training or education
- We work in partnership with the local authority and other agencies to ensure that our provision is accessible to all sections of the community.
- Services are widely advertised, and information is accessible to all sections of the community.
- Where the number of children wanting places exceeds the number of places available a waiting list is operated using clear criteria for allocation of places as detailed in section 09.1 Waiting list and admissions procedure.

Funded places – free entitlement

All 3- and 4-year-olds in England are entitled to 15 hours free childcare and early education each week for 38 weeks of the year. Some eligible two-year-olds are also entitled. Funded places are offered in accordance with national and local codes of practice and adherence to the relevant Provider Agreement/Contract with the local authority.

Special Educational Needs and Disability Act 2001

Special Educational Needs and Disability Code of Practice (DfE 2014)

Equality Act 2010

Childcare Act 2006

09 Early years practice procedures

09.1 Waiting list and admissions

We aim to ensure that all sections of the community receive accessible information, and that our admissions procedures are fair, clear and open to all parents who apply for a place.

- The setting is widely advertised in places accessible to all sections of the community.
- Information about the setting is accessible, using plain English, in written and spoken form and, where requested provided in different community languages and in other formats.
- Children with disabilities are supported to take full part in all activities within the setting and the setting makes reasonable adjustments to ensure that this will be the case from the time the child is placed on the waiting list.
- The waiting list is arranged in birth order and in addition:
 - the age of the child.
 - siblings already attending the setting
 - length of time on the waiting list . Late applications are considered after those requested prior to the Easter before entry
 - the vicinity of the home to the setting
 - the capacity of the setting to meet the individual needs of the child
- Funded places are offered in accordance with the Early Years Entitlements: Operational Guidance for local authorities and providers (DfE) and any local conditions in place at the time,
- Where it is financially viable to do so, a place is kept vacant for an emergency admission.
- The setting and its practices are welcoming and make it clear that fathers, mothers, other relations and carers and childminders are all welcome.
- The setting and its practices operate in a way that encourages positive regard for and understanding of difference and ability, whether gender, family structure, class, background, religion, ethnicity or competence in spoken English.
- The needs and individual circumstances of children joining the setting are monitored on 09.1c Childcare and early education registration form, to ensure that no accidental or unintentional discrimination is taking place and that reasonable adjustments are made as required.
- Section 05 Equality procedures are shared and widely promoted to all.
- Places are provided in accordance with 09.1d Childcare and early education terms and conditions issued to every parent when the child takes up their place. Failure to comply may result in the provision

of a place being withdrawn.

Admissions

- Once an early education and childcare place has been offered the relevant paperwork is completed by the setting manager or deputy before the child starts and filed on the child's personal file. Forms completed include:
 - 07.1a Privacy Notice - explains what personal data we collect, why we collect it, how we use it, the control parent/carers have over their personal data and the procedures we have in place to protect it.
 - 09.1d Early education and childcare terms and conditions - govern the basis by which we provide early education and childcare.
 - 09.1c Early education and childcare registration form - contains personal information about the child and family that must be completed in full prior to the child commencing.

Children with SEND

- The manager must seek to determine an accurate assessment of a child's needs at registration. If the child's needs cannot be met from within the setting's core budget, then an application for SEN inclusion funding must be made immediately.
- Children with identified SEND must be offered a place when one becomes available as with any other child. However, the start date for children with more complex SEND will be determined by the preparations made to ensure the child's safety, well-being and accessibility in the setting. If a child's needs determine that adjustments need to be made, the manager must outline a realistic timeframe for completion, detailing the nature of adjustments e.g. risk assessment, staff training, health care plan and all other adjustments required including permission from the insurance company. The child's safety at all times is paramount.
- At the time of registration, the manager must check to see if a child's family is in receipt of Disability Living Allowance, if so, the manager must ask for evidence to enable them to claim the Disability Access Fund directly from the local authority. If the family is eligible but not in receipt of the allowance, the setting manager will support the family in their application. More information can be found at www.gov.uk/disability-living-allowance-children/how-to-claim.
- Preparation for admitting a child with SEND must be made in a reasonable amount of time and any delay in the child starting is scrutinised by the setting manager to avoid discrimination and negative impact on the child and family. During the preparation period the family and relevant agencies and the local authority must be regularly updated on the progress of the preparations.

Safeguarding/child protection

If information is provided by the parents/carers that a child who is starting at the setting is currently, or was involved with social care, the designated safeguarding lead will contact the agency to seek further clarification.

Parents/carers are advised on how to access the setting's policies and procedures.

09 Early years practice procedures

09.2 Attendance and absence

We take steps to ensure that children are kept safe, that their wellbeing is promoted, and they do not miss their entitlements and opportunities. At the very least, good attendance promotes good outcomes for children. In a small minority of cases, good attendance may also lead to early identification of more serious concerns for a child or family.

There are several reasons why a child may be absent from a setting. In most cases it is reasonable to expect that parents/carers alert the setting as soon as possible, or in the case of appointments and holidays give adequate notice. The attendance and absence policy are shared with parents and carers, and they are advised that they should contact the setting as soon as possible regarding absences. Designated safeguarding leads must also adhere to Local Safeguarding Partnership (LSP) requirements, procedures and contact protocols for children who are absent or missing from the provision

- If a child who normally attends fails to arrive and no contact has been received from their parents/carers the administrator, takes immediate action to contact them to seek an explanation for the absence and be assured that the child is safe and well.(or the DSL in their absence)
- Attempts to contact the child's parents/carers or other named carers continue throughout the day on the first day of absence.
- If no contact is made with the parents/carers and there is no means to verify the reason for the child's absence i.e. through a named contact on the child's registration form, this is recorded as an unexplained absence on the child's personal file and is followed up by the manager/administrator each day until contact is made.
- If contact has not been made, and we have any reason for concern about a child's wellbeing and welfare, children's services will be contacted for advice about making a referral. Other relevant services may be contacted as per LSP procedures.
- All absences are recorded on the register with the reason given for the absence, the expected duration and any follow up action taken or required with timescales.
- Absence records will be monitored to identify patterns and trends in children's attendance. An understanding of the child's and family's individual circumstances will inform the setting's judgement in determining what constitutes a 'prolonged period of absence'.
- Absence records are retained for at least three years, or until the next Ofsted inspection following a cohort of children moving on to school.

If at any time further information becomes known that gives cause for concern, procedure 06.1 Responding to safeguarding or child protection concerns is immediately followed.

Safeguarding vulnerable children

- The designated safeguarding lead or key person attempts to contact the parents/carers to establish why the child is absent. If contact is made and a valid reason given, the information is recorded on the register
- Any relevant professionals involved with the child are informed, e.g. social worker/family support worker.
- If contact is made and the designated safeguarding lead is concerned that the child is at risk, the relevant professionals are contacted immediately. The events, conversation and follow-up actions are recorded. If contact cannot be made, the designated person contacts the relevant professionals and informs them of the situation.
- If the child has current involvement with social care, the social worker is notified on the day of the unexplained absence.
- If at any time information becomes known that gives cause for concern, 06 Safeguarding children, young people and vulnerable adults procedures are followed immediately.

Safeguarding

- If a child misses three consecutive sessions and it has not been possible to make contact, the designated person calls Social Care and makes a referral if advised. Contact with Social Care may be made sooner if there are concerns for a child's wellbeing or welfare
- If there is any cause for concern i.e. the child has a child protection plan in place or there have been previous safeguarding and welfare concerns, the designated person attempts to contact the child's parent/carer immediately. If no contact is made, the child's absence is logged in the child's red file and Social Care are contacted immediately, and safeguarding procedures are followed.

Poor/irregular attendance

Whilst attendance at an early years setting is not mandatory, regular poor attendance may be indicative of safeguarding and welfare concerns that should be followed up.

- In the first instance the setting manager should discuss a child's attendance with their parents/carers to ascertain any potential barriers i.e. transport, working patterns etc and should work with the parents/carers to offer support where possible.
- If poor attendance continues and strategies to support are not having an impact, the setting manager must review the situation and decide if a referral to a multi-agency team is appropriate.
- Where there are already safeguarding and welfare concerns about a child or a child protection plan is in place, poor/irregular attendance at the setting is reported to the Social Care worker without delay.

In the case of funded children, the local authority may use their discretion, where absence is recurring or for extended periods, considering the reason for the absence and impact on the setting. The setting manager is aware of the local authority policy on reclaiming refunds when a child is absent from a setting.

09 Early years practice procedures

09.3 Prime times – The role of the key person

'Each child must be assigned a key person' (EYFS 2024)

Young children need to form a secure attachment to key person when they join Eton Pre-School to feel safe, happy, and eager to participate and learn.

The key person role

- A key person builds an on-going relationship with the child and their parents/carers and is committed to that child's well-being while in the setting.
- Every child that attends is allocated a key person before they begin settling in
- The key person conducts the progress check at age two for their key children.
- The role is fully explained to parents/carers on induction and the name of the child's key person The key person is central to settling a child into the setting. The setting manager and key person explain the need for a settling in process and agree a plan with the parents.
- The number of children for each key person considers the individual needs of children and the capacity of the key person to manage their cohort; it is also influenced by part-time places and part time staff. The setting manager should aim for consistency i.e. matching part-time staff to part-time children;
- The key person spends time daily with his or her key children.
- Key people may change if the fit between child and adult is not conducive to the relationship.

Parents/carers

- Key persons are the first point of contact for parents regarding matters concerning their child and any concerns parents/carers may have been addressed with the key person in the first instance.
- Key persons support parents/carers in their role as the child's first and most enduring educators.
- The key person is responsible for the child's developmental records, completing the progress check at age two, and for sharing information about progress with the child's parents/carers.

Learning and development

- The key person helps to ensure that every child's learning and care is tailored to meet their individual needs. This is achieved through regular observation and assessment of children, using information gathered about their achievements, interests and learning styles to plan for each individual child's learning and development.
- If a child's progress in any of the prime areas gives cause for concern, the key person must discuss this with the setting manager or SENCO and the child's parents/carers.

Back-up key person

- The role of the back-up key person is to step in when the main key person is absent or unavailable to provide a stable and consistent care relationship for the child. An appropriate key worker will be assigned to the child and introduced to the parent if required.

Safeguarding children

- The key person has a responsibility towards their key children to report any concern about their development, welfare, or child protection matter to the setting manager and to follow the procedures in this respect.
- Regular supervision with the setting manager provides further opportunities to discuss the progress and welfare of key children.

Further guidance

09 Early years practice procedures

09.4 Settling in and transitions

To feel securely settled and ready to learn, children need to form attachments with the adults who care for them, primarily a key person, but others too. In this way they feel part of a community; they can contribute to that community and receive from it. Very young children, especially two- to three-year-olds, approach separation from their parent with anxieties, older children have a more secure understanding of 'people permanence' and can approach new experiences with confidence; but also need time to adjust and feel secure. It is the entitlement of all children to be settled comfortably into a new environment.

Eton Pre-School follow a three-stage model of settling in based on three key needs:

1. *Proximity* - Babies and young children feel safest when a familiar adult, such as a parent, is present when they are getting used to a new carer and new surroundings. In this way they can become confident in engaging with those experiences independently later on.
2. *Secure base* – Because the initial need for proximity of the parent has been met, babies and young children gradually begin to feel secure with a key person in a new surrounding so that they are able to participate independently for small periods of time.
3. *Dependency* – Babies and young children are able to separate from parents' and main carers when they have formed a secure attachment to their key person who knows and understands them best and on whom they can depend for their needs to be met.

The setting manager and key person explain the need for settling in and agree a plan with the parents/carer.. Each day they review the plan and agree what will happen the next day. Every child is an individual and each plan will be fluid and tailored to their needs

- Parents will have a discussion with the staff and agree a plan. We allow as much time as is needed to settle children and ensure parents are relaxed
- Transitions to new settings will be supported as much as possible and all previous settings will be called for information on the child's development..

09 Early years practice procedures

09.8 Snack-times and mealtimes

Children are supervised during mealtimes and always remain within sight and hearing of staff **and where possible should be sat facing children whilst they are eating so they can make sure children are eating in a way to prevent choking and also prevent food sharing and be aware of any unexpected allergic reactions.** . A member of staff with a valid paediatric first aid certificate is always present at mealtimes and there is a named person responsible for ensuring that the food provided meets each child's needs.

Snack times

- Water is always available. Snacks are offered every morning and some afternoons depending on timings and childrens needs.
- Jugs of water and milk are normally available for snack. Milk is semi skimmed. Alternative milks may be provided if required
- Children wash their hands before and after snack-time.
- Vegetables and fruit are offered in ways which support the childs development and ensure they grow their skills, like peeling oranges or biting apples
- Children arrive as they want refreshment and leave when they have had enough. Children are not made to leave their play if they do not want to have a snack but are encouraged to have a drink of water at an appropriate time
- Staff encourage children's independence by allowing them to pour drinks and select their snack

Mealtimes

- Children are always within sight and hearing of staff at mealtimes and where possible sat facing them while they are eating.
- There is a Paediatric First Aider present at children's meal and snack times.
children's places are personalised with mats or name labels to encourage reading and independence
Children wash their hands and sit down as food is ready to be served.
- Staff are encouraged to eat a healthy diet in front of the children
- Children are given time to eat at their own pace and are not hurried to fit in with adults' tasks and breaks.
- To protect children with food allergies or specific dietary requirements, children are discouraged from sharing and swapping their food with one another.
- Mealtimes are relaxed opportunities for social interaction between children and adults.
 - Birthday fruit 'cakes' are offered as a healthy alternative to celebrate the child special day. Parents are asked to support this and fruit must be in unopened packets and in date.

09 Early years practice procedures

09.9 Intimate care and nappy changing

Prime times of the day make the best of routine opportunities to promote 'tuning-in' to the child emotionally and to create opportunities for learning **while attending Eton Pre-School**. Children's privacy is maintained during nappy changing and toileting, whilst balanced with safeguarding considerations. Nappy changing times are key times in the day for being close and promoting security as well as for communication, exploration, and learning.

Young children, intimate care, and toileting

- Young children from two years may be put into 'pull ups' as soon as they are comfortable with this
- Changing areas are warm, appropriately sited and there are safe areas to lay young children if they need to have their bottoms cleaned.
- If children refuse to lie down for nappy change, they can be changed whilst standing up, providing it is still possible to clean them effectively.
- Key persons ensure that nappy changing is relaxed and a time to promote independence in young children.
- Young children are encouraged to take an interest in using the toilet; they may just want to sit on it and talk to a friend who is also using the toilet.
- They are encouraged to wash their hands and have soap and paper towels to hand.
- Anti-bacterial hand wash or other liquid handwash is used
- Key persons are gentle when changing and avoid pulling faces and making negative comment about the nappy contents.
- Disposable wipes (without plastics) are used to clean children if required. Staff conform to hygiene rules
- staff do not make inappropriate comments about young children's genitals when changing their nappies.
- If children require creams or lotions these must be signed in as a medication
- Older children use the toilet when needed and are encouraged to be independent.
- Members of staffs wipe childrens bottoms after faeces, children are taught how to do this in the term before starting school if this is developmentally appropriate
- Parents/carers are encouraged to provide enough changes of clothes for 'accidents when children are potty training.

- If spare clothes are kept by the setting, they are 'gender neutral' i.e. neutral colours, and are clean, in good condition and are in a range of appropriate sizes.
- If young children are left in wet or soiled nappies/pull-ups in the setting, this may constitute neglect and will be a disciplinary matter.

09 Early years practice procedures

09.10 Prime times – Sleep and rest time

Sleep and rest times are key times in the day for being close and promoting security. Younger children will need to sleep but older children do not usually need to..

Young children

- Young children sleep on rest mats and have clean bedding.
- Hair accessories with parts that may come lose or detached and pose a choking hazard are removed before sleep/rest time.
- A separate area of the room is made as quiet as possible,
- Young children are settled. They are soothed to sleep. Key persons may stroke or very gently pat children.
- Sleeping children are regularly checked at least every ten minutes and are within sight and/or hearing of staff
- Sleeping children are regularly checked at least every ten minutes and are within sight and/or hearing of staff

09 Early years practice procedures

09.12 Promoting positive behaviour

This is an unsettling time for young children. Educators are alert to the emotional well-being of children who may be affected by the disruption to their normal routine. Where a child's behaviour gives cause for concern, educators take into consideration the many factors that may be affecting them. This is done in partnership with the child's parents/carers and the principles of this procedure are adhered to

The setting manager/SENCO will:

- ensure that all staff are aware of how to address unwanted behaviours and provide them with advice and the tools to do so.

Step 1

- The setting manager, SENCo and other relevant staff members are knowledgeable with, and apply the guidelines in Promoting positive behaviour.
- Unwanted behaviours are addressed using an agreed and consistently applied approach to deescalate situations as appropriate for the unique child
- Behaviours that result in concern for the child and/or others must be discussed by the key person with the setting manager. During the meeting the key person must use their all-round knowledge of the child and family to share any known influencing factors such as a new baby in the family, child and/or parental illness, underlying additional needs to help place the child's behaviour into context.
- Appropriate adjustments to practice must be agreed within the setting. If relevant, a behaviour plan may be carried out
- If the adjustments are successful and the unwanted behaviour does not reoccur, or cause concern then normal monitoring can resume.

Step 2

- If the behaviour remains a concern, then the key person and SENCo must liaise with the parents to try to discover possible reasons for the behaviour and to agree next steps. If relevant and appropriate the views of the child must be sought and considered to help identify a cause.
- If a cause for the behaviour is not known or only occurs whilst in the setting, then the setting manager/SENCo must suggest using a focused intervention approach to identifying a trigger for the behaviour such as the ABC approach, i.e. Antecedents – what happened before; Behaviour – what was the behaviour observed; Consequences – what happened after the event.
- If a trigger is identified, then the SENCo and key person must meet with the parents to plan support for the child through a graduated approach via SEN support.

- Aggressive behaviour by children towards other children will result in a staff member intervening immediately to stop the behaviour and prevent escalation using the agreed initial intervention approach. If the behaviour has been significant or may have a detrimental effect on the child, the parents/carers of the victim of the behaviour and the parents/carers of the perpetrator must be informed. If the setting has applied a physical intervention, they must follow the guidance as set out below. A record will be made in the behaviour book and this will be discussed and signed for by the parent, so allowing ongoing discussions and working out how to move forward together
- If relevant, actions for dealing with the behaviour at home are agreed with parents and incorporated into the action plan. Other staff are informed of the agreed interventions and help implement the actions. The plan must be monitored and reviewed regularly by the key person/SENCo until improvement is noticed.
- Incidents and intervention relating to unwanted/challenging behaviour by children must be clearly and appropriately logged

Step 3

If despite applying initial intervention to deescalate situations and focused interventions to identify triggers the child's behaviour continues to occur and/or is of significant concern, the SENCo and key person invite the parents/carers to a meeting to discuss external referral and next steps for supporting the child. It may be agreed that the setting request support from the Early Help team and/or other specialist services such as the Area SENCo. This will help address most developmental or welfare concerns. If the behaviour is part of other welfare concerns that include a concern that the child may be suffering or likely to suffer significant harm, safeguarding procedures 06 Safeguarding children, young people and vulnerable adults' procedures must be followed immediately.

- Advice provided by external agencies is incorporated in a Plan and regular multi-disciplinary meetings held to review the child's progress.
- If a review determines a statutory assessment may be needed then all relevant documentation must be collected in preparation for an Education Health and Care Assessment which may lead onto an Education, Health, and Care needs assessment

Use of physical intervention

Staff will already use different elements of physical contact with a child as part of their interaction in the setting especially when they are comforting a child or giving first aid. However, physical intervention to keep a child or other children safe is different and should only be applied in exceptional circumstances.

The EYFS states that physical intervention from a staff member towards a child may be used for the purposes of "averting immediate danger of personal injury to any person (including the child) or to manage a child's behaviour if it is absolutely necessary."

Staff must do all they can to avoid using a physical intervention because this is not the preferred way of addressing children's behaviour.

To offer protection to children a range of appropriate graded interventions may be needed before physical intervention is applied. Most single incidents such as a child throwing a book on the floor or kicking a chair usually only require a verbal intervention from a member of staff. In other situations, an intervention can be applied through mechanical and environmental means such as locking doors and stair gates. This usually stops a situation escalating. However, there will be some situations where a child places themselves or others in danger which requires an immediate need for the use of both verbal and physical intervention. If a single or persistent incident requires a physical intervention such as physical handling from a staff member towards a child, then this is used intentionally to restrict a child's movement against their will. In most cases this can be applied using the adult's body gently and safely blocking the child from access to danger or to prevent danger.

To physically intervene, an educator may use "reasonable force" to protect a child from injuring themselves or others. Legally an educator may also use reasonable force to prevent a child from damaging property.

Physical handling

We use the principle of applying reasonable minimal force and handling in proportion to the situation. Staff use as little force as necessary to maintain safety. This intervention should only be used for as short a period as possible to keep the child safe and maintain well-being by aiming for:

- keeping the child's safety and well-being paramount
- a calm, gentle but firm approach and application of the intervention
- avoiding close head-to-head positioning to avoid injury to the child and themselves (head butting)
- only holding the child by their 'long' bones to avoid grasping at the child's joints where pain and damage are most likely to occur
- reassuring the child and talking about what has happened
- using appropriate lifting and handling procedures

Risks

There are risks associated with any physical intervention and handling of a child. The younger and more vulnerable a child may be, the greater risk to the child of using physical intervention towards them.

However, there are also risks to children associated with not intervening physically; for instance, if an educator did not take hold of a child by the wrist, they may have run into the path of a fast-moving car.

Before intervening physically to protect a child from immediate harm an educator needs to decision make in a split second, considering the following factors. This is described as dynamic risk assessment.

- What is the immediate risk to this child if I do not intervene now?

- What might the risks be if I do intervene? If this were my child, what would I want someone looking after them to do in this situation?
- What is the minimum level of intervention that will be effective here? How can I do this as gently as possible for as short a time as possible and how am I going to manage myself to stay calm?

Recording

Incidents of physical intervention may need to be recorded in the behaviour book so that this can be discussed with a parent to avoid recurrence or find other solutions.

Temporary suspension (fixed term)

Any decision to temporarily suspend a child must be carefully considered lawful, reasonable, and fair. If despite following the stepped approach for behaviour it is necessary to temporarily suspend a child, for no more than five days, on the grounds of health and safety, the following steps are followed.

- The setting manager provides a written request to suspend a child to their line manager; the request must detail the reason the child must be suspended and the length of time of the proposed suspension.
- If the line manager approves, the parents/carers must be invited to a meeting to discuss next steps. Parents/carers are invited to bring a representative along. Notes must be taken at the meeting and shared later with the parents. The meeting aims for a positive outcome for the child and not to suspend.
- If no acceptable alternative to suspension is found then the setting manager must give both verbal and written notice of time related suspension to the parent, meanwhile the setting manager must ensure that continued resolution is sought, and suitable adjustments are in place for the child's return.

Suspension of a disabled child

We have a statutory duty not to discriminate against a child based on a protected characteristic. This includes suspending a child based on a disability. Ignorance of the law or claiming it was unknown that a child was disabled is no defence. However, if the child's behaviour places themselves or others at risk then the setting must take actions to avoid further harm. Time limited suspension may be applied to keep the child and/or others safe whilst finding a solution. Suspension is only used if reasonable steps and planned adjustments are first used to help resolve the situation. Without this action, suspension of a child with SEND may constitute disability discrimination (Equality Act 2010). A decision to suspend a disabled child must be clearly evidenced, specific, measurable, achievable, realistic, and targeted. Plans and intervention must be recorded on the child's file and 9.12b SEN Support - Action plan. If little or no progress is made during the suspension period, the following steps are taken.

- The setting manager sends a written/electronic invite to the parents/carers, a local authority representative and any relevant external agencies to attend a review meeting. Each attendee must be made aware that the meeting is to avoid the situation escalating further and to find a positive solution.
- After the meeting, the setting manager continues to maintain weekly contact with the parents/carers and local authority to seek a solution.

- Suitable arrangements offer the parent/carer continued support and advice during the suspension. The setting manager reviews the situation fortnightly and provides their line manager with a monthly update.

Expulsion

In some exceptional circumstances a child may be expelled due to:

- a termination of their childcare and early education agreement as explained in 9.1d Childcare and early education terms and conditions
- if despite applying a range of interventions (including reasonable adjustments), the setting has been unable to adequately meet the child's needs or cannot protect the health, safety and well-being of the child and/or others.

Challenging unwanted behaviour from adults in the setting

We do not tolerate behaviour demonstrating dislike, prejudice, discriminatory attitudes, or action towards any individual/group. This includes those living outside the UK (xenophobia). This also applies to behaviour towards specific groups of people and individuals who are British Citizens residing in the UK.

Allegations of discriminatory remarks or behaviour made in the setting by any adult will be taken seriously. The perpetrator will be asked to stop the behaviour and failure to do so may result in the adult being asked to leave the premises. Where a parent/carer makes discriminatory or prejudice remarks to staff at any time, or other persons while on the premises, this is recorded on the child's file and is reported to the setting manager. The procedure is explained, and the parent/carer is asked to comply while on the premises. An 'escalatory' approach will be taken with those who continue to exhibit this behaviour. The second stage comprises a letter to the parent/carer requesting them to sign a written agreement not to make discriminatory remarks or behave in discriminatory or prejudice ways; the third stage may be considering withdrawing the child's place.

09 Early years practice procedures

09.13 Identification, assessment and support for children with SEND

We have regard for the Special Educational Needs and Disability (SEND) (DfE and DoH 2015) which states that local authorities must ensure that all early years providers that they fund in the maintained, private, voluntary and independent sectors are aware of the requirement on them to meet the needs of children with SEN and disabilities. When securing funded early education for two, three- and four-year-olds local authorities should promote equality and inclusion for children with disabilities or SEN; this includes removing barriers that prevent access to early education and working with parents/carers to give each child support to fulfil their potential.

The term SEN support defines arrangements for identifying and supporting children with special educational needs and/or disabilities. We are required to offer appropriate support and intervention and to promote equality of opportunity for children that we care for. Children's SEND generally falls within the following four broad areas of need and support:

- communication and interaction
- cognition and learning
- social, emotional and mental health
- sensory and/or physical needs

Graduated approach

Initial identification and support (identifying special educational needs)

- Ongoing formative assessment forms part of a continuous process for observing, assessing, planning and reviewing children's progress.
- Children identified as having difficulty with one or more area of development should be given support by applying some simple strategies and resources.
- For most children application of some simple differentiation approaches will be enough to build confidence and help the child develop, A record of concern form can be used for this purpose.
- If despite applying differentiated strategies a child continues to struggle and is showing significantly more difficulty with learning than their peers or has a disability which requires specific adjustments, then the key person should raise a concern with the setting's SENCo/setting manager and the child's parents.

Observation and assessment of children's SEN

Where a child appears to be behind expected levels, or their progress gives cause for concern, educators should consider all the information about the child's learning and development from within and beyond the setting.

- Information can be collated from formal checks such as the progress check at age two, observations from parents/carers and observation and assessment by the setting of the child's progress.
- When specialist advice has been sought externally, this is used to help determine whether a child has a special educational need (SEN).
- The child's key person and SENCo/Manager use this information to decide if the child has a special educational need.
- If the decision is that the child does have a SEN and the parents are not already aware of a concern, then the information is shared with them. Once parents/carers have been informed, they should be fully engaged in the process, contributing their insights to all future actions for their child.

Planning intervention

- Everyone involved with the child should be given an opportunity to share their views. Parents/carers should be encouraged to share their thoughts on the child's difficulties and be involved in the decision as to what will happen next.
- A first intervention option may be to carry on with applying differentiated support and to review the child's progress at an agreed date. If the child's needs are more complex, then the decision maybe to go straight ahead and prepare an: Action plan with detailed evidence-based interventions being applied straight away and simultaneously external referrals made.
- If relevant, then the child should be appropriately included in development of the action plan but only at a level which reflects their stage of comprehension.

Involving the child

- The SEND Code of Practice supports the rights of children to be involved in decisions about their education.
- Inclusion of children with SEND helps build self-confidence and trust in others.
- Ascertaining children's views may not be easy, a range of strategies will be needed.
- Accurate assessment helps identify children's strengths and possible barriers to learning.
- The key person and setting manager/SENCo work in partnership with parents/carers and other agencies to involve the child wherever appropriate.
- Children are involved at appropriate stages of the assessment and to their level of ability.
- Establishing effective communication is essential for the child's involvement.

SEN action plan

- Plans should show what support is required to help achieve outcomes for the child and detail the frequency of these interventions and who will apply them and with what resources.
- A review date (at least termly) should be agreed with the parents/carers so that the child's progress can be reviewed against expected outcomes and next steps agreed.
- A copy of the plan is stored in the child's file so that any other member of staff or an inspector looking at the file will see how the child is progressing and what interventions have been or are being applied.
- If a child requires specific medical interventions during their time in the setting, a Health care plan form should also be completed and integrated into the general plans to ensure the child's medical needs are known and safely met.
- The action plan should provide an accessible summary of the child's needs, which can be used if further assessment is required including a statutory Education Health and Care (EHC) Assessment, and development of an EHC plan.

Drawing up a SEN action plan

- If external agencies are already involved at this stage, then they should also be invited to help decide on what appropriate interventions are needed to help meet outcomes for the child. The SENCo/setting manager should take the lead in coordinating further actions including preparation of the action plan and setting short-term targets.
- Where there are significant emerging concerns (or an identified special educational need or disability) targeted action plans are formulated that relate to a clear set of expected outcomes and stretching targets.
- The plan, highlights areas in which a child is progressing well; areas in which some additional support might be needed and any areas where there is a concern that a child may have a developmental delay (which may indicate a special educational need or disability). It describes the activities and strategies the provider intends to adopt to address any issues or concerns.
- Planned intervention should be based on the best possible evidence and have the required impact on progress with longer-term goals covering all aspects of learning and development and shorter-term targets meeting goals.
- The plan should focus on the needs of the child, the true characteristics, preferences, and aspirations of the child and involvement of the parents with a clear set of targets and expected outcomes for the child. Effective planning at this stage should help parents and children express their needs, wishes, and goals:
 - focus on the child as an individual and not their SEN label

- be easy for children to understand and use clear ordinary language and images, rather than professional jargon
- highlight the child strengths and capacities
- enable the child, and those who know them best, to say what they have done, what they are interested in and what outcomes they are seeking in the future
- tailor support to the needs of the individual
- organise assessments to minimise demands on families
- bring together relevant professionals to discuss and agree together the overall approach
- If the child fails to make progress and multi-agency support is sought then this should be coordinated through the MASH team

Record keeping

If a child has or is suspected of having a SEN, a dated record should be kept of:

- the initial cause for concern and the source of this information, (the progress check at age two and/or outcomes of previous interventions). An Initial record of concern form can also be used for this purpose drawing information from other sources
- the initial discussion with parents/carers raising the possibility of the child's SEN
- the views of the parents/carers and other relevant persons including, wherever possible, the child's views
- the procedures followed regarding the Code of Practice to meet the child's SEND e.g. SEN action plan, referrals to external agencies and for statutory assessment
- evidence of the child's progress and any identified barriers to learning
- advice from other relevant professionals; and all subsequent meetings with parents and other persons and any subsequent referrals

Records may include

- observation and monitoring sheets
- expressions of concern
- risk assessments
- access audits (01.1b)
- health care plans (including guidelines for administering medication)
- SEN action plans

- meetings with parents/carers and other agencies
- additional information from and to outside agencies
- agreements with parents/carers
- guidelines for the use of children's individual equipment; Early help CAF referrals
- referral to the local authority identifying a child's special educational needs and request for statutory Education, Health, Care (EHC) needs assessment, and a copy of an EHC plan

Seeking additional funding/enhanced/top up

If the child's needs cannot be met from within the setting's core funding, then it will be at this point that the evidence collated will be used to apply for top up/enhanced funding from the local authority's inclusion fund. If a new or existing child is disabled, then the setting should check if the family is in receipt or have applied for Disability Living Allowance. If so, the setting will be able to apply to their local authority for the local Disability Access Fund.

Statutory education, health and care (EHC) assessment and plan

Statutory assessment

- If a child has not made progress, then the next steps may be for the child to undergo an Education, Health and Care Assessment.
- If a child is under compulsory school age, the local authority will conduct an EHC needs assessment if they consider that the child's needs cannot be met within the resources normally available to the early years setting.
- Children aged under age two are eligible where an assessment has indicated that the child is likely to have SEN which requires an EHC plan when they reach compulsory school age.
- When a child's needs appear to be sufficiently complex, or the evidence suggest specialist intervention then the local authority is likely to conclude that an EHC plan is necessary
- The local authority should fully involve the parent and must seek advice from the setting in making decisions about undertaking an EHC assessment and preparing an EHC plan.
- Settings should prepare by collating information about the child's SEND including:
 - documentation on the child's progress in the setting
 - interventions and support provided to date
 - evidence of external agency assessment, support and recommendations
 - parent/carer views and wishes (and where appropriate those of the child)

The information will then be submitted to the local authority to allow them to accurately assess the child in the context of the support already given.

- The local authority must inform the child's parents of their decision within six weeks of receiving a request for an assessment and give its reasons for their decision. If the local authority decides to conduct an assessment, it must ensure the child's parents are fully included right from the beginning and are invited to contribute their views. If the local authority subsequently decides not to conduct an assessment it must then inform the parents of their right to appeal that decision, of the requirement for them to consider mediation should they wish to appeal.
- If the local authority decides that a statutory EHC plan is not necessary, it must notify the parents/carers and inform the provider, giving the reasons for the decision. This notification must take place within 16 weeks of the initial request or of the child having otherwise been brought to the local authority's attention.
- If the decision following an assessment is to compile an EHC plan the local authority should consult collaboratively with the parents/carers in the preparation of the plan ensuring that their views and their child's preferences are considered and that plans describe positively what the child can do and has achieved to date.
- Plans are evidenced based and focus on short term outcomes and long-term aspirations for the child including family and community support. Parents/carers have the right to request a particular provision for their child to be named within their EHC plan.
- If an early years setting is named, the local authority must fund this provision. They cannot force a setting to take a child and can only name the provision in the EHC if the setting agrees.
- Local authorities should consider reviewing an EHC plan for a child under age five at least every three to six months. Such reviews would complement the duty to carry out a review at least annually but may be streamlined and not necessarily require the attendance of the full range of professionals, depending on the needs of the child. The child's parents/carers must be fully consulted on any proposed changes to the EHC plan and made aware of their right to appeal to the Tribunal.

External intervention and support

Where external agency intervention has been identified to help support a child with SEND then this intervention should be recommended in writing by a suitably reliable source such as a speech and language therapist, paediatrician or educational psychologist.

09 Early years practice procedures

09.14 Prime times – Transition to school

Moving on to school is a major transition in a child's life involving separation from familiar adults and children. Older children have a more secure understanding of 'people permanence' and can approach new experiences with confidence. However, they need preparation if they are to approach transition to school with confidence and an awareness of what to expect.

Partnership with schools

- Details of the school that a child will be attending are recorded in the child's file.
- Every effort is made to forge and maintain strong links with all schools that children may attend. The setting manager will approach schools to open lines of communication where these have not previously existed.
- Teachers are welcomed into the setting and sufficient time is made for them to spend both with the child and with the key person, to discuss and share information that will support the child's transition to school.
- A child's learning journey record is forwarded to the school along with other information that will aid transition and settling in. Parents/carers may download a copy of this.
- Any action plans relating to a child's additional needs are also shared, where this is in place.
- Other formal documentation such as safeguarding information is prepared in line with procedure 07.6 Transfer of records.

Partnership with parents/carers

- Key persons discuss transition to school with parents and set aside time to discuss learning and development summaries. Parents/carers are encouraged to contribute to summaries.
- Key persons will make clear to parents the information that will be shared with the school, for example, information regarding child protection and work that has taken place to ensure the child's welfare.

Increasing familiarity for children

- If there are several schools in a catchment area, or the setting is not within a reasonable distance of the school, other means of familiarisation will be explored. This could be through videos, photographs or other information about the school that can be shown within the setting. Staff may borrow resources from the schools and will use these with the children.

Preparing children for leaving

- Children and parents/carers form bonds with adults and children in the setting and will need preparation for separating from the relationships they have formed.
- The child's last day should be prepared for in advance and marked with a special celebration or party that acknowledges that the child is moving on.

10 Working in partnership with parents/carers and other agencies policy

Alongside associated procedures in 10.1-10.2 Working in partnership with parents/carers and other agencies, this policy was adopted by *Eton Pre-School* on 10/01/2026

Aim

Eton Pre-School actively promote partnership with parents/carers and recognise the importance of working in partnership with other agencies to promote the well-being of children and their families. This includes signposting parents/carers to support as appropriate.

Objectives

- We believe that parents/carers are children's first and most enduring educators and our practice aims to involve and consult parents/carers on all aspects of their child's well-being.
- We also recognise the key role parents/carers must play in the day-to-day organisation of the provision.
- We consider parents/carers views and expectations and will give the opportunity to be involved in the following ways:
 - sharing information about their child's needs, likes, achievements and interests
 - settling in their child to the agreed plan according to our settling in procedures
 - taking part in children's activities and outings
 - contributing with ideas or resources as appropriate to enhance the curriculum of the setting
 - taking part in early learning projects, sharing with educators' knowledge and insights about their child's learning
 - contributing to assessment with information, photos and stories that illustrate how their child is learning within the home environment, taking part in day-to-day family activities
 - taking part in planning, preparing, or simply participating in social activities organised within the setting
 - Participating in feedback sessions and responding to reports
 - Ofsted, the childminder agency and setting contact details are displayed on the parent/carer notice board for parents/carers who have a complaint that cannot be resolved with the setting manager in the first instance, or where a parent/carer is concerned that the EYFS standards are not being maintained

Partnership and signposting to other agencies

- We are committed to ensuring effective partnership with other agencies including:
 - local authority early years services about the EYFS, training and staff development
 - local programmes regarding delivering children's centres or the childcare and early education element of children's centres
 - social welfare departments regarding children in need and children who need safeguarding or for whom a child protection plan is in place
 - child development networks and health professionals to support children with disabilities and special needs
 - local community organisations and other childcare and early education providers
 - Ofsted and setting contact details are made available to other agencies who have a complaint that cannot be resolved with the setting manager in the first instance, or where a parent/carer is concerned that the EYFS safeguarding and welfare standards are not being maintained.

10 Working in partnership with parents and other agencies procedures

10.1 Working in partnership with parents/carers and other agencies

Eton Pre-School believes that families are central in all services we provide for young children. They are involved in all aspects of their child's care, their views are actively sought, and they are actively involved in the running of the setting in various ways.

We work in partnership with local and national agencies to promote the well-being of all children.

Families

- Parents/carers are provided with written information about the setting, including the setting's safeguarding actions and responsibilities under the Prevent Duty.
- Parents/carers are made to feel welcome in the setting; they are greeted appropriately;
- Every effort is made to accommodate parents/carers who have a disability or impairment.
- The expectations we make on parents/carers are made clear at the point of registration.
- There is a clear expectation that parents/carers will participate in settling their child at the commencement of a place according to an agreed plan.
- There is sufficient opportunity for parents/carers to share necessary information with staff, and this is recorded and stored to protect confidentiality.
- Key persons support parents/carers in their role as the child's first and most enduring educators.
- Key persons regularly feedback to parents/carers to discuss their child's learning and development and to share concerns if they arise.
- Key persons work with parents/carers to carry out an agreed plan to support a child's special educational needs.
- Key persons work with parents/carers to carry out any agreed tasks where a child protection plan is in place. In accordance with any childrens services plan
- Parents/carers are involved in the social and cultural life of the setting and are actively encouraged to contribute.
- As far as possible the service is provided in a flexible way to meet the needs of parents/carers without compromising the needs of children.
- Parents/carers are involved in regular assessment of their child's progress, including the progress check at age two, as per procedure 09.15 Progress check at age two.
- There are effective means for communicating with parents/carers on all relevant matters and 10.2 Complaints procedure for parents/carers and service users is referred to when necessary.

- Every effort is made to provide an interpreter for parents/carers who speak a language other than English and to provide translated written materials.
- Information about a child and their family is kept confidential within the setting. The exception to this is where there is cause to believe that a child may be suffering, or is likely to suffer, significant harm, or where there are concerns regarding their child's development that need to be shared with another agency. Parental permission will be sought unless there are reasons not to, to protect the safety of the child.
- Parental consent is sought to administer medication, take a child for emergency treatment, take a child on an outing and take photographs for the purposes of record keeping.
- Parents/carers' views are sought, if possible, regarding changes in the delivery of the service.
- There are opportunities for parents/carers to take active roles in supporting their child's learning in the setting:

Agencies

- We work in partnership or in tandem with local and national agencies to promote the wellbeing of children.
- Procedures are in place for sharing of information about children and families with other agencies, as set out in procedures 07.2 Confidentiality, recording and sharing information.
- Information shared by other agencies (third party information) is also kept in confidence and not shared without consent from that agency.
- When working in partnership with staff from other agencies, individuals are made to feel welcome in the setting and professional roles are respected.
- Staff follow the protocols for working with agencies, for example on child protection.
- Staff from other agencies do not have unsupervised access to the child they are visiting in the setting
- Staff do not casually share information or seek informal advice about any named child/family.
- We consult with and signpost to local and national agencies who offer a wealth of advice and information promoting staff understanding of issues facing them in their work and who can provide support and information for families. For example, ethnic/cultural organisations, drug/alcohol agencies, welfare rights advisors or organisations promoting childcare and early education, or adult education.

Schools

- Settings work in partnership with schools to assist children's transition as per procedure 09.14 Prime times – transition to school and share information as per procedure 07.6 Transfer of records.
- The setting manager actively seeks to forge partnership with local schools with the aim of sharing best practice and creating a consistent approach.

10 Working in partnership with parents and other agencies procedures

10.2 Complaints procedure for parents/carers and service users

There is a fair way of dealing with issues as they arise in an informal way, but parents/carers may wish to exercise their right to make a formal complaint. They are informed of the procedure to do this, and complaints are responded to in a timely way. The same procedures apply to agencies who may have a grievance or complaint.

Parents/carers

- If a parent/carer is unhappy about any aspect of their child's care or how they have been treated, this should be discussed with the child's key person. The key person will listen to the parent/carer and acknowledge what they are unhappy about. The key person will offer an explanation and an apology if appropriate. The issue and how it was resolved is recorded in the child's file and Complaint Investigation Record. The recording will also make clear whether the issue being raised relates to a concern about quality of the service or practice, or a complaint. For allegations relating to serious harm to a child caused by a member of staff or volunteer procedure 6.2 Allegations against staff, volunteers or agency staff will be followed.
- If the parent/carer is not happy with the key person's response or wishes to complain about the key person or any other member of staff, they will be directed to the setting manager. Some parents/carers will want to make a written complaint; others will prefer to make it verbally; in which case the setting manager writes down the key issues of the complaint using the Complaint Investigation Record and keeps it in the child's file.
- The setting manager will investigate the complaint and provide time to feedback to the parent/carer within 28 days. A confidential written report of the investigation is kept in the child's file if the complaint relates directly to a child.
- If the parent/carer is still not satisfied, then they are entitled to appeal the outcome verbally or in writing to the setting manager's who will pass the matter on to directors/trustees for further investigation and will respond to the parent/carer within a further 14 days.
- If the complainant believes that the matter has not been resolved and there has been a breach of the EYFS requirements they are entitled to make a complaint to Ofsted or the childminder agency. The manager will assist in any complaint investigation as well as in producing documentation that records the steps that were taken in response to the original complaint.
- The setting manager ensures that parents/carers know they can complain to Ofsted by telephone or in writing at any time as follows:

Applications, Regulatory and Contact (ARC) Team, Ofsted, Piccadilly Gate, Store Street, Manchester M1 2WD or telephone: 0300 123 1231

Other services

- If an individual from another service wishes to make a formal complaint about a member of staff or any practice of the setting, it should be made in writing to the setting manager.
- The complaint is acknowledged in writing within 10 days of receiving it.
- The setting manager investigates the matter and meets with the individual to discuss the matter further within 28 days of the complaint being received.
- An agreement needs to be reached to resolve the matter.
- If the complainant is not satisfied with the outcome of the investigation, they are entitled to appeal and are referred to the owners/directors/trustees.

Ofsted complaints record

- Legislation requires settings to keep a record of complaints and disclose these to Ofsted, or the childminder agency at inspection, or if requested by Ofsted, or the childminder agency at any other time.
- The record of complaints is a summative record only.
- A record of complaints will be kept for at least 3 years.
- In all cases where a complaint is upheld a review will be undertaken by the owners/directors/trustees to look for ways to improve practice where it is required.

This procedure is displayed on the pre-school website
